All times are approximate and for reference only.

The Board of Directors may consider an item at a different time than set forth herein.

1 2 3 4 5	DRAFT NORTH MARIN WATER DISTRICT MINUTES OF REGULAR MEETING OF THE BOARD OF DIRECTORS July 18, 2017
6	CALL TO ORDER
7	President Petterle called the regular meeting of the Board of Directors of North Marin Water
8	District to order at 7:00 p.m. at the District headquarters and the agenda was accepted as
9	presented. Present were Directors Jack Baker, Rick Fraites, Michael Joly, and Stephen Petterle.
0	Also present were General Manager Drew McIntyre, District Secretary Katie Young, Chief Engineer
1	Rocky Vogler and Auditor-Controller David Bentley.
12 13 14	Marin County Flood Control District employees Liz Lewis and Laurie Williams, Novator Residents Chris DeGabriele, Gary Butler, and the Schoonover Family, District employees Robert Clark (Operations/Maintenance Superintendent) and Tony Arendell (Construction/Maintenance Superintendent) were in the audience.
16	On motion of Director Petterle, seconded by Director Fraites, the Board approved moving
17	item #10 – Resolution of Appreciation – John Schoonover to the beginning of the meeting by the
18	following vote:
19	AYES: Director Baker, Fraites, Joly, Petterle
20	NOES: None
21	RESOLUTION OF APPRECIATION FOR DIRECTOR SCHOONOVER
22	President Petterle read a Resolution of Appreciation for Director John Schoonover
23	commending him for his 33 years of serving as Board member to the District. Board members and
24	staff paid their respect to the Schoonover family whom were in attendance at the meeting to accep
25	the Resolution.
26	On motion of Director Baker, seconded by Director Fraites, the Board approved Resolution
27	17-18 entitled: "North Marin Water District Resolution of Appreciation (Posthumous) to John
28	Schoonover" by the following vote:
29	AYES: Director Baker, Fraites, Joly, Petterle
30	NOES: None
31 32	Recently retired General Manager Chris DeGabriele paid his respects to Directo Schoonover's family.

32

MINUTES FROM REGULAR MEETING - JUNE 20, 2017

- On motion of Director Fraites, seconded by Director Baker the Board approved the minutes
 from the June 20th meeting as presented by the following vote:

MINUTES FROM REGULAR MEETING - JUNE 27, 2017

- On motion of Director Baker, seconded by Director Joly the Board approved the minutes from the June 27th meeting as presented by the following vote:
- 9 AYES: Director Baker, Fraites, Joly, Petterle
- 10 NOES: None

GENERAL MANAGER'S REPORT

12 Oceana Marin Homeowners Association Meeting

Mr. McIntyre advised the Board that he attended the OM Homeowners Association meeting and approximately 30 residents were there. He reviewed the budget, reserves and future capital improvement projects along with the winter storm damage and grant funding the District is applying for. He stated that Supervisor Rodoni was in attendance at the meeting.

17 Trench Restoration

- Mr. McIntyre informed the Board that he and various city engineers have proposed revisions to the Marin Public Works Association trench restorations standards. He stated that he had a meeting with Marin County Raul Rojas and an MMWD employee and advised that the objective is to work with Mr. Rojas.
- 22 Out of the Office
- Mr. McIntyre advised the Board that he will be on vacation starting tomorrow 7/19, and will be back before the next Board meeting on August 1st. He noted that Mr. Bentley will be acting General Manager.

26 **OPEN TIME**

27 President Petterle asked if anyone in the audience wished to bring up an item not on the 28 agenda and there was no response.

NMWD Draft Minutes 2 of 7 July 18, 2017

STAFF / DIRECTORS' REPORTS

 President Petterle asked if staff or Directors wished to bring up an item not on the agenda and the following items were discussed:

Tony Arendell advised the Board that there was a 12" main break from Summit Lane to Crest Road on Wednesday night around 8pm. He stated that the crew pinpointed the leak around 10pm and put a full circle clamp on the pipe. He noted that the leak was stopped around 1:45 a.m. but pressure never left the main. He advised the Board that the leak was flowing for approximately 7.5hrs and that approximately 219,000 gallons of water were lost.

Mr. Bentley advised the Board that the Sonoma County Water Agency determined that with the water loss metering error at the Kastania meter, the District will be received a \$566K credit from SCWA for overbilling from last year.

Mr. Bentley also advised that the owner at 42 Spinosa Way, whom the District approached regarding the sale of her property to perfect the District easement, has changed her mind and will no longer be selling her property.

Mrs. Young advised the Board that she will be out of the office from July 28 through August 14th and that Eileen Mulliner will be present at the August 1st Board meeting.

Director Fraites requested that Mr. McIntyre ask District legal counsel if he should recuse himself from any item regarding Ridge Road since he is the Chair of the Novato Heights.

Mr. Vogler advised the Board that the work on Ridge Road will most likely be extending the start date to the Spring of 2018 in order to go with conventional construction and minimizing the impacts to the community.

NOVATO WATERSHED PRESENTATION (FLOOD CONTROL)

Mr. McIntyre introduced staff from Marin County Flood Control District Liz Lewis and Laurie Williams who provided a presentation on the Proposed Parcel Tax for Novato for Flood Control Zone No. 1. The proposed tax is \$47 per year for the next 18 years and will be brought to the Marin County Board of Supervisors for approval to put on the November ballot. The proposed tax will help improve water quality in creeks, wetlands and the Bay, restore creek and wetland habitat for fish, birds, and wildlife, reduce roadway flooding by funding high priority and City storm drainage projects and more.

NMWD Draft Minutes 3 of 7 July 18, 2017

MONTHLY PROGRESS

Mr. McIntyre provided the Board with the Monthly Progress Report for June. He stated that water production was up by 6% year to date compared to last fiscal year and that overall water supply at Lake Mendocino and Lake Sonoma are good and Oceana Marin storage levels and ponds are low. He informed the Board that in the last quarter 35% of customer questionnaires were returned.

David Bentley provided the Monthly Report of Investments stating that the District has a cash balance of \$10.1M at the end of June and that the weighted average portfolio rate was 0.99%.

CONSENT CALENDAR

On the motion of Director Fraites, seconded by Director Joly the Board approved the following items on the consent calendar by the following vote:

AYES: Director Baker, Fraites, Joly, and Petterle

NOES: None

RESPONSE TO CIVIL GRAND JURY RE: AFFORDABLE HOUSING

The Board authorized staff a response to the Marin County Civil Grand Jury regarding Overcoming Barriers to Housing Affordability.

ACTION CALENDAR

APPROVE FILLING BOARD VACANCY

Mr. McIntyre explained to the Board the procedure for filling the Board vacancy. He stated that the Board vacancy will be as of July 3, 2017. He reminded the Board that the Board must appoint a new Director within 60 days of the start of vacancy. He stated that any interested candidates are to submit a letter of interest to the District Secretary by 5pm on August 14th and he asked that the Board approve a special meeting to conduct interviews set for Tuesday, August 22nd at 6pm at the District Headquarters.

On motion of Director Fraites, seconded by Director Baker, the Board approved the following: Declare a vacancy on the Board due to the death of Director Schoonover, as of July 3, 2017, set a special meeting at 6pm on August 22,2017 to conduct candidate interviews, approve the tentative timeline to fill the vacancy, authorize the notice being placed in the Point Reyes Light, Novato Advance and Marin Independent Journal soliciting letters of interest and resumes from residents of the District who are interested in serving on the Board and approve a press release to the same three newspapers regarding the Board vacancy by the following vote:

AYES: Director Baker, Fraites, Joly, and Petterle

1	NOES:	None
---	-------	------

District Secretary Katie Young reminded the Board that the special meeting on August 22nd is set for 6 p.m.

LUMP-SUM PAYMENT OPTION OF CALPERS FY18 UNFUNDED LIABILITY

Mr. Bentley requested that the Board approve a lump sum prepayment option of the unfunded liability of \$551,397 to CalPERS saving the District \$20,304. He reminded the Board that the District has paid the prepayment for the last 2 years.

On motion of Director Joly, seconded by Director Fraites, the Board approved the lump sum prepayment option of the unfunded liability by the following vote:

AYES: Director Baker, Fraites, Joly, and Petterle

11 NOES: None

FERC RESPONSE LETTER TO PG&E APPLICATION FOR RELICENSING OF THE POTTER VALLEY PROJECT

Mr. McIntyre requested that the Board approve a FERC Response Letter to the PG&E's Application for Relicensing of the Potter Valley Project. He advised the Board that the significant points in the District's comment letter are: (1) requesting that the geographic scope of the project be extended, at a minimum, to include the upper reach of the Russian River downstream from Lake Mendocino to the confluence with Dry Creek and (2) requesting review of why Eel River water diversions since 2006 have been reduced by 50% in contrast to the 2002 Biological Opinion that stated that the prescribed flow regime would result in an approximate 15% reduction in annual diversion of water from the Eel River basin to the Russian River basin.

Director Fraites asked if Sonoma County Water Agency has taken a position on this yet. Mr. McIntyre responded that SCWA has seen the District's response and provided comments but have not drafted a letter of their own.

. Director Fraites asked if there would be more specific information once the Environmental Impact Report is completed. Mr. McIntyre stated that the report stated 15% reduction and it needs to go back to 50% so that the Eel River is not jeopardized.

On motion of Director Joly, seconded by Director Baker, the Board approved the FERC response letter to the PG&E Application for Relicensing of the Potter Valley Project by the following vote:

AYES: Director Baker, Fraites, Joly, and Petterle

NOES: None

INFORMATION ITEMS

WILD HORSE TANK VANDALISM

Robert Clark provided the Board with a summary of the event that occurred at the Wild Horse Valley Tank. He stated that a police report was filed with Marin County Sheriff.

Director Fraites asked if it was too late to offer a reward leading to the conviction of the vandalism. Mr. Clark reported that Marin County Sheriff is going to do a survey of local homeowners and see if there were any cameras that caught any information but that the tank is located in open space and there are several paths to the tank.

BILL ADJUSTMENT POLICY SURVEY

Mr. Bentley provided the Board with a Bill Adjustment Policy Survey that was requested by Director Baker in April. He stated that the District is in line with the other agencies although most of the agencies call the policy a leak adjustment policy and require a copy of the plumber's bill or repair showing that the leak has been fixed.

Director Baker suggested that in the future there be some minor tweaking and the Board should revisit this policy.

MISCELLANEOUS

The Board received the following miscellaneous information: Disbursements, Quarterly Labor Cost Report, Press Release: North Marin Water District Director Passed Away on July 3rd, Praise for Novato's Hard Workers, and County of Marin's Urban Growth Boundary Ordinance Letter.

The Board received the following news articles: Marin water rates go up as usage goes down; Federal agencies greenlight proposed delta tunnel project; Bill preserving Marin's suburban status sparks affordable housing debate, As others seek expanded water supplies, Marin set until 2040; Marin IJ Editorial: MMWD confident it has long-term capacity; and John Schoonover, longtime Novato water official, dies at 89.

The Board also received the following miscellaneous items at the meeting: Report says North Marin should serve all Dillon Beach and Novato water tank vandalism forces draining of 200,000 gallons.

ADJOURNMENT

President Petterle adjourned the meeting at 8:34 p.m.

MEMORANDUM

To: Board of Directors July 28, 2017

From: David L. Bentley, Auditor-Controller

Subj: Information – FY16/17 June Preliminary Financial Statement

t:\accountants\financials\stmtfy17\md&a0617.doc

FISCAL YEAR PERFORMANCE COMPARED TO THE ANNUAL BUDGET

CONSOLIDATED SUMMARY		FY	FY16/17	FYTD /
Actual vs. Budget	<u>Jun-17</u>	<u>16/17</u>	<u>Budget</u>	Budget %
Operating Revenue	\$2,017,593	\$18,598,892	\$19,648,000	95%
Operating Expense	1,381,303	17,732,817	18,611,000	95%
Non-Operating Revenue / (Expense)	21,411	(307,927)	(458,000)	67%
Net Income / (Loss)	\$657,700	\$558,147	\$579,000	96%
Other Sources / (Uses)*	(1,776,934)	(3,494,868)	(1,060,000)	330%
Cash Increase / (Decrease)	(\$1,119,234)	(\$2,936,721)	(\$481,000)	611%

See Page 8.

For the fiscal year the District generated a net income of \$558,147 and saw a net cash decrease of \$2,936,721. Operating Revenue came in 5% under budget and Operating Expense came in 5% under budget. Sixty-nine percent of the Capital Improvement Projects Budget was expended this fiscal year. At June 30 \$5,370,395 in loan and grant funds was owed the District for the Recycled Water Distribution System expansion to Central Novato.

SUMMARY INCOME STATEMENTS BY SERVICE AREA PRESENTED IN ACCORDANCE WITH GENERALLY ACCEPTED ACCOUNTING PRINCIPALS

NOVATO WATER		FY	FY	FY17 vs 16
Year over Year Comparison	<u>Jun-17</u>	<u>16/17</u>	<u>15/16</u>	Up/(Down)
Operating Revenue	\$1,794,210	\$16,890,503	\$15,793,139	7%
Operating Expense	1,203,849	16,007,759	15,001,502	7%
Other Income / (Expense)	44,704	(152,334)	(222,770)	(32%)
Net Income / (Loss)	\$635,064	\$730,409	\$568,866	28%
Active Accounts	20,544	20,544	20,535	0%
Consumption (MG)	258	2,300	2,152	7%
Average Commodity Rate / 1,000 gal (net)	\$5.42	\$5.40	\$5.25	3%
Income / (Loss) / Active Account	\$30.91	\$35.55	\$27.70	28%
Income / (Loss) / 1,000 Gal	\$2.46	\$0.32	\$0.26	20%
Connection Fee Revenue	\$0	\$973,385	\$255,000	282%
Caltrans Capital Contribution	\$0	\$17,160	\$2,649,186	(99%)
MMWD AEEP Capital Contribution	\$0	\$245,000	\$245,000	0%
Developer 'In-Kind' Contributions	\$8,294	\$538,616	\$413,247	30%

Consumption for the fiscal year was 7% more than the prior year. Total operating revenue, which includes wheeling and other miscellaneous service charges, increased 7% (\$1,097,364) from the prior year due to the consumption increase. Total operating expense was 7% (\$1,006,256) more than last year.

The Stafford Treatment Plant produced 756 MG this fiscal year at a cost of \$2,714/MG¹ versus \$2,547/MG³ from SCWA. The budget for Stafford was 750 MG at a cost of \$2,820/MG.

Staff time (hours) charged to Novato operations was 3% more than last year. Salary and benefit cost was \$6,533,142, which was 101% of the \$6,475,000 budget for Novato operations.

The fiscal year net income (which includes non-operating items such as interest revenue and expense) of \$730,409 compares to a budgeted net income for the year of \$755,000 and to a net income of \$568,866 for the prior year. \$1,460,706 (18%) of the Novato Water Capital Improvement Project Budget was spent versus \$4,471,574 (49%) for the prior year. \$973,385 in connection fees were collected (\$779,000 was budgeted). Connection Fee reserves totaling \$1,230,940 were transferred this fiscal year to the Recycled Water Fund to cover the debt service for expansion of the RW distribution system. The Novato Connection Fee Reserve has a deficit of \$5,655,246 arising from transfers to the RW Fund in advance of Connection Fee receipts. That deficit will be reimbursed by future Connection Fee revenue. The Novato cash balance decreased \$1,340.856 in June, and stood at \$7,464,106 at year end, compared to a budgeted projection of \$10,100,000. The June cash decrease was due primarily to payments for the Recycled Water SRF loans (\$369,520), the STP SRF loan (\$574,461) and the Recycled Central Service Area project (\$1,795,250), offset by receipt of SRF loan proceeds (\$464,313) and grant funds (\$784,860) for the Recycled Central project and the FY18 MMWD AEEP contribution (\$245,000). The Novato potable water fund has temporarily loaned \$4,805,586 to the Recycled Water System to cashflow the Central Expansion pending receipt of loan and grant funds.

		· · · · · · · · · · · · · · · · · · ·		
NOVATO RECYCLED		FY	FY	FY17 vs 16
Year over Year Comparison	<u>Jun-17</u>	<u>16/17</u>	<u>15/16</u>	Up/(Down)
Operating Revenue	\$112,130	\$718,372	\$701,903	2%
Operating Expense	86,974	815,840	844,234	(3%)
Other Income / (Expense)	(28,241)	(241,787)	(197,635)	22%
Net Income / (Loss)	(\$3,085)	(\$339,256)	(\$339,966)	(0%)
Active Accounts	47	47	44	7%
Consumption (MG)	22.5	131.8	135.2	(3%)
Average Commodity Rate / 1,000 gal (net)	\$4.87	\$5.20	\$4.98	4%
Deer Island Production (MG)	0.0	6.2	6.2	0%
Novato Sanitary Production (MG)	23.3	92.1	89.1	3%
Las Gallinas Production (MG)	7.6	45.5	44.0	3%
Potable Water Input (MG)	0.0	1.4	8.0	(82%)

131.8 MG was delivered to RW customers this fiscal year, 3% less than the prior year. Operating revenue was 2% more than last year same period due to the June 1, 2016 7% commodity rate increase offset by the consumption decrease. Total operating expense was \$28,394 (3%) less than the prior year, and includes \$22,000 of paving on Olive Avenue in December. The recycled water was produced at a cost of \$2,512/MG² versus \$2,547/MG³ from SCWA. The budgeted production cost of recycled water was \$3,035/MG.

The fiscal year net loss of \$339,256 compares to a budgeted net loss for the year of \$300,000 and a net loss of \$339,966 for the prior year. \$9,876,595 (129%) of the Capital Improvement Project Budget was expended this fiscal year. The Novato Recycled cash balance stood at \$869,672 at year end, which

¹ Stafford production cost = TP op expense (\$1,220,322) + SRF loan interest (\$272,950) + plant depreciation (\$558,748) / 756 MG produced

² Recycled Water production cost = purchase water cost (\$154,602) + treatment expense (\$10,701) + Deer Island RW Facility SRF loan interest (\$62,773) + Deer Island plant depreciation (\$136,678) / 145.2 MG produced

³ SCWA production cost per MG = O&M charge (\$2,123) + debt service charge (\$157) + Russian River conservation charge (\$228) + Russian River projects charge (\$40)

amount resides in a restricted reserve required by State loan covenant for payment of debt service on the North & South RW Expansion Projects, compared to a budgeted projection of \$1,505,000 at June 30, 2017. At June 30 the Recycled Water fund owed the Novato potable water fund \$4,805,586 pending receipt of \$5,370,395 in SWRCB loan and grant funds for the Recycled Water Distribution System expansion to Central Novato.

WEST MARIN WATER		FY	FY	FY17 vs 16
Year over Year Comparison	<u>Jun-17</u>	<u>16/17</u>	<u>15/16</u>	Up/(Down)
Operating Revenue	\$93,235	\$773,428	\$720,580	7%
Operating Expense	78,058	692,000	651,281	6%
Other Income / (Expense)	1,492	25,649	27,008	(5%)
Net Income / (Loss)	\$16,669	\$107,077	\$96,307	11%
Active Accounts	780	780	780	0%
Consumption (MG)	7.8	61.6	56.6	9%
Average Commodity Rate / 1,000 gal (net)	\$9.99	\$9.70	\$9.62	1%
Income/ (Loss) / Active Account	\$21.37	\$137.28	\$123.47	11%
Income / (Loss) / 1,000 Gal	\$2.14	\$1.74	\$1.70	2%
Connection Fee Revenue	\$0	\$30,800	\$0	-
Developer 'In-Kind' Contributions	\$0	\$0	\$15,841	-

Consumption for the fiscal year was 61.6 MG, 9% more than prior year. Operating revenue of \$773,428 was \$52,847 (7%) more than last year primarily due to the consumption increase and the 5% rate increase effective July 1, 2016, offset by a large (74%) increase in bill adjustments.

Operating expenditures were \$692,000, 6% more than the previous year. The fiscal year net income of \$107,077 compares to a budgeted annual net income of \$73,000 and to a net income of \$96,307 for the prior year. \$80,120 (13%) of the Capital Improvement Project Budget was expended this fiscal year, and \$30,800 in connection fees was collected (\$23,000 was budgeted). The West Marin Water cash balance decreased \$21,356 in June, and stood at \$1,331,453 at year end, compared to a budgeted projection of \$732,000 at June 30, 2017.

OCEANA MARIN SEWER		FYTD	FY	FY17 vs 16
Year over Year Comparison	<u>Jun-17</u>	<u>16/17</u>	<u>15/16</u>	Up/(Down)
Operating Revenue	\$18,017	\$216,589	\$195,921	11%
Operating Expense	12,422	217,218	207,324	5%
Other Income / (Expense)	3,456	60,545	64,665	(6%)
Net Income / (Loss)	\$9,051	\$59,916	\$53,261	12%
Active Accounts	231	231	230	0%
Monthly Sewer Service Charge	\$78	\$78	\$71	10%
Income / (Loss) / Active Account	\$39.18	\$259.38	\$231.57	_
Connection Fee Revenue	\$0	\$30,400	\$23,690	28%

Operating revenue of \$216,589 was 11% more than the previous year due to the 10% rate increase effective July 1, 2016. Operating expenditures were 5% (\$9,894) more than the previous year. The fiscal year net income of \$59,916 compares to a budgeted annual income of \$51,000 and to a net income of \$53,261 for the prior year. 74% of the Capital Improvement Project Budget was expended this fiscal year.

\$30,400 in connection fees was collected (\$30,000 was budgeted). The Oceana Marin cash balance decreased \$12,394 in June, and stood at \$430,151 at year end, compared to a budgeted projection of \$327,000 at June 30, 2017.

¹ On September 1, 2009 the Board authorized water conservation expenditures to be charged against the Conservation Incentive Rate Fund.

² Prior period adjustment of \$788,509 pertains to Recycled Water Facility SRF Loan Interest Expense relieved from Novato FRC FY08-FY16. Black Point Golf Links pays for 91.67% of the Debt Service through 2/28/24 and only the amount not paid by BPGL should be relieved from the FRC Fund.

NORTH MARIN WATER DISTRICT CONNECTION FEE ANALYSIS FOR THE PERIOD ENDING JUNE 30, 2017

The Connection Fee (FRC) Fund is comprised of cash available from collection of Facility Reserve Charge Fees. The FRC fee is charged to developers based upon the estimate of cost necessary to construct capacity to serve the new development. These funds are restricted by law for expansion of the facilities within the service area where the new development occurs. Funds are disbursed from the Connection Fee Reserve as expenditures to increase system capacity to serve new development are incurred.

¹ The Percentage Funded by Connection Fees is the percentage of total project cost paid by FRC funds, which are allocated to new growth based on historic NMWD practice. The Total From Connection Fees amounts shown are FRC (connection fee) expenditures only, and do not include operations funding, which is also used to pay for these projects.

¹ Vehicle & Equipment Recovered is the amount charged to projects and operations to recover the expense of owning and operating the asset. The recovery rate is \$6/hr. for vehicles 3/4-ton and under \$11/hr. for larger vehicles. An additional 50% is charged to developer projects to reflect the fair market value of the asset used.

² Insurance Includes Medical, Dental, Vision, Cafeteria, Life

³ Projected gain on self-insured worker's compensation gives rise to the budgeted payroll gain.

¹ Expense amount shown excludes depreciation (approximately \$100,000 for FY17).

² Recovery is the amount charged to projects and operations to recover the expense of owning and operating the vehicle. Commencing 7/1/07 the recovery rate for vehicles 3/4-ton and under is \$6/hr and the recovery rate for vehicles 1-ton and over is \$11/hr. An additional 50% is charged to developer projects to reflect the fair market value of the vehicle being used.

³ Purchased used in 2004 with 33,500 miles. Mileage shown is total incurred since District purchase.

North Marin Water District Financial Statement Notes

Note 1 - Restricted Cash

Connection Fee Fund: Cash available from collection of Connection Fees. The fee is charged to developers based upon the estimate of cost necessary to construct capacity to serve the new development. These funds are restricted by law for expansion of the water or sewer facilities within the service area where the development occurs. Funds are disbursed from the Connection Fee Reserve as expenditures are incurred to increase system capacity to serve new development. The fund balance accrues interest monthly.

Wohler Pipeline Financing Fund: In December 2002 the Sonoma County Water Agency sold \$6.8 million (par) of 30-year revenue bonds to finance the Wohler to Forestville Pipeline. NMWD's share of the debt is \$844,050 (\$6,800,000 X 11.2 / 90.4). In January 2003 the District established this designated cash and corresponding reserve account and transferred \$844,050 of FRC money into the fund. The Wohler Pipeline Financing Fund is credited with interest monthly.

Collector #6 Financing Fund: The Sonoma County Water Agency received a \$15.8 million State Revolving Fund loan commitment at an interest rate of 2.8% repayable over 20 years for construction of Collector #6. NMWD's share of Collector #6 is \$1,950,000 (\$15,800,000 X 11.2 / 90.4). In January 2003 the District established this designated cash and corresponding reserve account and transferred \$1,950,000 of FRC money into the fund. The Collector #6 Financing Fund is credited with interest monthly.

Revenue Bond Redemption Fund: Comprised of one year of debt service as required by West Marin revenue bond covenants. These funds are restricted for payment of bond principal, interest and administration fees. The fund balance does not accrue interest.

Bank of Marin Project Fund: The District received an \$8 million loan from the Bank of Marin in October 2011 to fund the Aqueduct Energy Efficiency Project. The 20-year, 3.54% annual percentage rate loan requires monthly payments of \$46,067 and will be fully amortized on 10/27/2031. In June 2012 the Board authorized reallocating \$1 million of this loan to West Marin Water to repay Novato Water \$223,000 owed for previous loans to fund Long Range Improvement Projects and the remainder to fund the Solids Handling Facility at the Point Reyes Water Treatment Plant. The unexpended fund balance accrues interest monthly.

Deer Island RWF Replacement Fund: The State Revolving Fund (SRF) loan agreement required the District to agree to establish and maintain a Water Recycling Capital Reserve Fund (WRCRF) for the expansion, major repair, or replacement of the Deer Island Recycled Water Treatment Plant. The WRCRF is maintained in compliance with the "Policy for Implementing the State Revolving fund for Construction of Wastewater Treatment Facilities" in effect at the time the agreement was signed by the District. The September 2003 Recycled Water Master Plan prepared by Nute Engineering recommended limiting the reserve to fund replacement of the RWF electrical and mechanical equipment (including transmission pumps) as they wear out. The cost of said equipment was \$1,483,000 which, at Nute's recommended 6% interest rate factor and 25-year life, renders an annual funding requirement \$115,000. The fund balance accrues interest monthly.

Recycled Water Capital Replacement and Expansion Fund: The 2011 Interagency Agreements for Recycled Water between NSD, LGVSD & NMWD require that any payments to the Distributor (NMWD) by the End User (Consumers) in excess of actual costs (marginal payments) shall be deposited in this fund. Operation and Maintenance Costs are defined as the actual cost of: labor (including general and administrative overhead plus tools and supplies normally applied), equipment and vehicle charges, consumables (such as chemicals and electrical power), and spare parts and/or replaced components necessary to reliably treat and deliver recycled water to the End Users. Operation and Maintenance Costs do not include costs for major capital replacement or process changes.

Tax Receipts held in Marin County Treasury: Balance of tax proceeds collected and disbursed by the County of Marin for repayment of the Olema (OL-2) general obligation bond debt. The County credits interest to these funds quarterly.

STP SRF Loan Fund – Marin County Treasury: The 2004 Stafford Treatment Plant State Revolving Fund (SRF) loan agreement requires the District to build a Reserve Fund equal to one year of payments (\$1,044,474) in the Marin County Treasury during the first ten years of the 20-year repayment period. Every January 1 and July 1, commencing January 1, 2010, the District deposits with the County 10% of the semi-annual SRF payment. The County credits the fund with interest quarterly, and will use the Reserve to pay the last 2 semi-annual SRF loan payments.

RWS North/South SRF Payment Fund: The State Water Resource Control Board Agreements for the seven Clean Water State Revolving Fund Loans made for expansion of the Recycled Water System distribution system require that the District establish a reserve fund equal to one year's debt service (\$614,299) prior to the construction completion date.

Note 2 - Designated Cash

Liability Contingency Fund: Established in 1986 when the District first elected to self-insure its general liability risk. This reserve was funded with \$1 million initially and \$200,000 annually thereafter until it reached a balance of \$2 million. In FY98 the West Marin Water System was included in the fund and built-up a proportional reserve of \$74,000 over several years. Commencing FY93, \$1 million of the reserve was made available to fund loans to eligible employees under the District's Employer Assisted Housing Program. In August 2008, \$500,000 was transferred into this reserve from the Self-Insured Workers' Compensation Fund and made available to fund Employer Assisted Housing Program loans. Currently there are \$1,234,200 in Employer Assisted Housing Loans outstanding (see Note 3). In March 2005, \$652,400 was expended from the fund to purchase a home at 25 Giacomini Road in Point Reyes Station. The home is currently rented. In 2006, \$8,885 was added from the sale of surplus property in West Marin. The fund balance does not accrue interest.

Self-Insured Workers' Compensation Fund: Commencing July 2011, the District began self-insuring its workers' compensation liability. The savings accrued through self-insuring the liability is reserved in this fund for possible future claims expense. The District carries a workers' compensation excess policy for claims that exceed \$750,000. See schedule on page 21.

Retiree Medical Benefits Fund: NMWD pays the cost of health insurance for retirees between the ages of 55 and 65 and spouse under any group plan offered by CalPERS. The retiree must be at least 55 and have a minimum of 12 years of NMWD service at the date of retirement. NMWD's contribution toward the chosen plan is capped in the same manner as all other NMWD employees in the same class. Coverage terminates for the spouse when the spouse becomes eligible for Medicare, or for both the retiree and spouse when the retiree becomes eligible for Medicare. When the retiree or spouse becomes eligible for Medicare, NMWD pays up to the couple annuitant rate, which is capped at \$3,830 per year (\$319/month). In August 2003, NMWD transferred \$2.55 million (\$2.3 million for current retirees plus \$250,000 for future retirees) from unrestricted cash into a reserve to fund this obligation. In 2010 the Board directed staff to add \$1,500 per employee annually as a payroll overhead to accrue and accelerate amortization of this liability. The accrual is maintained as a Long-Term Liability entitled Retiree Health Benefits Payable. The Retiree Health Benefits Payable plus the Retiree Medical Benefits Reserve Fund currently has a balance of \$3.7M. In 2015 an Actuarial Analysis calculated NMWD's total actuarial liability at \$5.6 million. The Retiree Medical Benefits cash fund earns interest monthly. Accounting Standards require that the \$5.6M reserve by fully funded in 20 years.

Drought Contingency (Rate Stabilization) Fund: In August 2008, the Board directed staff to establish this reserve with \$135,000 from the Self-Insured Workers' Compensation Fund for the Novato district to draw upon during dry years. A threshold of 3.2 billion gallons of potable consumption was established as a benchmark for 'normal' years. During any fiscal year that water sales volume exceeds 3.2BG, the incremental revenue generated is deposited into the Drought Contingency Reserve. In those years when sales volume falls below the benchmark, funds are withdrawn from the reserve to maintain the budgeted revenue forecast. The goal is to build a reserve equal to 20% (currently \$2,500,000) of budgeted annual water commodity sales. In FY09 \$50,335 was added to the reserve. The fund was fully depleted in FY10. The fund balance accrues interest monthly.

Maintenance Accrual Fund: Established in FY91 to provide a source of maintenance money for replacement of treatment, storage, transmission and distribution facilities as they wear out. The annual contribution from operating reserves was initially \$200,000. Net polybutylene claim settlement proceeds of \$671,060 were closed into the fund in FY93. In FY94 the annual contribution was reduced to \$100,000. The District's goal is to build a reserve equal to 10% of the net book value of Novato's existing plant, currently \$7.0M. Funds are borrowed from the Maintenance Accrual Fund to offset the shortfall in unrestricted Cash & Investments. The fund balance does not accrue interest.

Conservation Incentive Rate Fund: In 2004 and 2005, a Conservation Incentive Tier Rate was enacted in Novato and West Marin respectively. Monies derived from this tier-rate charge are set aside in the Conservation Incentive Rate Reserve, and used for conservation programs designated by the Board. The fund balance accrues interest monthly.

Operating Reserve Fund: This reserve, comprised of four months of budgeted operating expenditures (less depreciation) as recommended by the District's financial advisors, serves to ensure adequate working capital for operating, capital, and unanticipated cash flow needs that arise during the year. The fund balance does not accrue interest.

Note 3 - Employee Loans

Housing Loans: The District's Employer Assisted Housing Program allows up to \$300,000 to be loaned to an employee for a period of up to 15 years for the purchase of a home within the District service territory that will enable the employee to respond rapidly to emergencies affecting the operation of the District. Repayment is due upon sale, termination of employment, or other event as described in the Program. Interest on the loan is contingent upon and directly proportional to the appreciation in value occurring on the purchased property. There are five employee-housing loans currently outstanding totaling \$934,200: a \$250,000 loan dated August 2004, a \$39,200 loan dated September 2004, a \$150,000 loan dated November 2007, a \$245,000 loan dated June 2010, and a \$250,000 loan dated March 2015.

Note 4 - Other Long Term Receivables

The District entered into a temporary water service agreement with Black Point Golf Links in 1999 to provide potable water for StoneTree Golf Course until recycled water was available. In 2006 the District received a \$4.3 million 20-year 2.4% SRF loan to finance the Deer Island Recycled Water project, and Black Point Partners agreed to pay the District \$3,612,640 in bimonthly payments of \$41,762 at 2.4% coinciding with StoneTree's water service payments. The final payment from StoneTree is due in February 2024.

Note 5 - Depreciation

Assets are assigned a useful life based on consultations with the District Chief Engineer and a survey of other water agencies. Depreciation is computed on a straight-line basis over the estimated useful life of the various classes of property as follows:

<u>Facility</u>	Life (Years)
Aqueduct	150
Dam	100
Buildings & Structures	40
Mains	50
Pumping Equipment	25
Water Treatment Equipment	20
Storage & Transmission (16"+) Facilities	50
Distribution Facilities (includes Pump Stations)	50
Office, Laboratory, Construction & Shop Tools & Equipment	10
Vehicles 1 ton or greater,	10
All other vehicles	5
Sewer Mains,	40
Sewer Pumps,	10

Note 6 - Capitalization Policy

The Government Finance Officers Association *Guide for State and Local Governments* recommends that a capitalization policy incorporate a minimum threshold of \$5,000 and an estimated useful life of at least two years. It also cautions that federal grant and loan requirements prevent the use of capitalization thresholds in excess of \$5,000. Thus NMWD's capitalization threshold is \$5,000.

Note 7 – Bond & Loan
Servicing Schedule for Fiscal Year 2016-2017

								F	/17	6/30/17
	Service Area	Description	Issue Date	Rate	Original Amount	Payment Due	Final Pmt	Interest Expense	Principal Paid	Outstanding Balance

						F	Y17 Total	\$757,935	\$1,769,086	\$27,669,794

- 1. In 1977 the Federal Economic Development Administration issued a 40-year 5% loan of \$351,770 to assist in the funding emergency Novato Water system projects in response to the drought. The final loan payment was made in June of 2017.
- 2. In April 2004 the California State Department of Water Resources approved a 2.39% 20-year loan for reconstruction of the Stafford Water Treatment Plant. The project was completed in FY09 with repair of the Outlet Tower Sluice Gate. Interest paid during construction totaled \$1,636,378. The loan covenants require an annual reserve fund contribution of \$104,447 (10% of the annual debt service obligation) be deposited into the Marin County Treasury during each of the first ten years of the repayment period. Debt service is funded 25% by Facility Reserve Charges. The first payment was made in December 2009.
- 3. In October 2011 Bank of Marin made a 20-year 3.54% (APR) loan of \$8 million to fund the District's share of the Aqueduct Energy Efficiency Project. See Note 15, and note to loan 11 below.

- 4. In August 2006 the California State Department of Water Resources approved a 2.4% 20-year loan of \$4,264,545 for construction of the Deer Island Recycled Water Facility. With the addition of \$38,015 in Construction Period Interest, the loan principal totaled \$4,302,560. The project was completed in June 2007, and the first payment was made June 19, 2008.
- 5. In July 2011 the California State Department of Water Resources approved a series of four 2.6% 20-year loans which totaled \$4,375,605 for the Recycled Water North Service Area Expansion Project. The projects were completed on October 31, 2012, and the first payment was made in November of 2012.
- 6. In March 2012 the California State Department of Water Resources approved a series of three 2.2% 20-year loans totaling \$5,361,952 for the Recycled Water South Service Area Expansion Project. The projects were completed on September 4, 2013, and the first payment was made in December of 2013.
- 7. In 1977 the Federal Economic Development Administration issued a 40-year 5% loan of \$46,000 to assist in the funding emergency West Marin Water system projects, including temporary diversions from Bear Valley Creek and Lagunitas Creek in response to the drought. The final loan payment was made in June of 2017.
- 8. The Paradise Ranch Estates private water system was created by David Adams and Sons in 1952 to provide water to 85 homes in the PRE subdivision located north of Inverness Park. Problems with water quality and quantity developed and in 1969 the Marin County Health Department issued a boilwater order to all customers of the company. In 1972 the County declared a moratorium on issuance of building permits. A suit by property owners resulted in an agreement reached in Marin Superior Court in late 1978 directing Adams to finance a District feasibility study for the takeover of the system. This culminated in formation of Improvement District PRE-1 and an election authorizing issue of \$240,000 of 5% 40-year revenue bonds, which, in conjunction with a \$720,000 Farmers Home Administration grant, financed system rehabilitation. Service was provided from the Point Reyes System by installation of an additional well, expansion of the treatment plant, and a 6-inch pipeline connection at the Inverness Park pump station extending 1.6 miles along Sir Francis Drake Boulevard to the newly reconstructed Paradise Ranch Estates distribution system. On 4/22/80 the USDA purchased the revenue bond issue in its entirety.
- 9. In 1981 work commenced on rehabilitating the Point Reyes Inverness Park water system. 18,865 feet of pipeline was either replaced or installed, a 300,000-gallon tank was added in Point Reyes Station and a 100,000-gallon tank was added in Inverness Park. Total cost of these improvements was \$820,015. A 72% grant combined with a \$217,800 5% 40-year revenue bond acquired 8/28/81 by the Farmers Home Administration financed the project.
- 10. In June 2012 the Board authorized reallocating \$1 million of the Bank of Marin loan to West Marin Water to repay Novato Water \$223,000 owed for loans to fund Long Range Improvement Projects and the remainder to fund the Solids Handling Facility at the Point Reyes Water Treatment Plant. See note to loan 3 above.

Note 8 - Unemployment Insurance Reserve

NMWD uses the "Reimbursable Method" of paying for Unemployment Costs. Under this method, the District reimburses the State Employment Development Department for all unemployment benefits paid on our behalf. The reserve is maintained at an amount equal to the higher of the average claim amount paid over the last 5 years or 52 times the maximum weekly benefit amount (currently $$450 \times 52 = $23,400$).

Note 9 - Payroll Benefits

Payroll Benefits payable includes payroll taxes; vacation, sick, and holiday leave; Section 125 payments; cancer, long term care and disability insurance premiums; union dues; and employee benefit fund.

Note 10 - Interest Policy on Inter-District Loans

In the event an improvement district expends all of its Undesignated Funds, it shall borrow funds from that improvement district's Board Designated Fund reserves to meet ongoing requirements. In the event an

improvement district expends all of its Board Designated Fund reserves, it may receive a loan from the Novato Improvement District in an amount sufficient to meet its ongoing requirements. Restricted Funds shall not be used to finance ongoing normal operating expenses.

No interest shall be paid by an improvement district on funds borrowed from that improvement district's Board Designated Fund reserves. Interest on loans from the Novato Improvement District shall be paid by the recipient district to the Novato district based upon the outstanding loan balance at the close of the previous accounting period. Interest shall be calculated at the higher of: 1. The weighted average interest rate of Novato improvement district debt (2.78% at 6/30/16); or 2.The average interest rate earned on the District treasury since the close of the previous accounting period; plus \$50 per month.

Note 11 - Budget Augmentations

Note 12 - Prior Period Adjustment

Novato water usage adjustment (\$247,077) for FY16 due to inaccurate meter reads by Sonoma County Water Agency. Recycled Water Operating and Electric Power Expense for FY12-16 (\$39,671.65) was billed by Novato Sanitary District in FY17.

Note 13 - Explanation of Financial Statement Components

The District's financial statement is comprised of four components: 1) Statement of Net Position, 2) Sources and Uses of Funds Statement – All Service Areas Combined, 3) Income Statement and Cash Flow by Service Area, and 4) Notes to the Financial Statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

The Statement of Net Position (page 4) reports the District's assets and liabilities and provides information about the nature and amount of investments in resources (assets) and the obligations to the District's creditors (liabilities). The difference between assets and liabilities is reported as *net position*. Over time, increases or decreases in the fund balance may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Sources and Uses of Funds Statement – All Service Areas Combined (page 8) compares fiscal year-to-date performance against the Board approved annual budget – presented in the adopted budget format. This Sources and Uses of Funds Statement varies from the income statement in that it includes capital expenditures, debt principal repayment, connection fee revenue, and cash infusions from debt issuance.

The Income Statement and Cash Flow by Service Area (page 9) presents the net income (loss) for the fiscal year-to-date (FYTD) period for each of the District's four service areas. The income and expenses on this report are presented in conformity with Generally Accepted Accounting Principles (GAAP) and comply with Governmental Accounting Standards Board pronouncements. Accordingly, all income and expenses are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. This statement measures the success of each service area's operations and can be used to determine whether the service area has successfully recovered all costs through user fees and other charges.

Also included at the bottom of page 9 is a statement of Cash Flow by Service Area. The primary purpose of this statement is to reconcile in an informative manner the difference between the net income/(loss) for the period of each service area with the resultant change in cash balance that occurred over the same period.

Notes to the Financial Statements (page 31) provide a summary of significant accounting policies and assumptions and other information of value to the financial statement reader.

Other Supplementary Information includes Detail Income Statements presented in accordance with GAAP for each of the four service areas (pages 10, 14, 16, 19). These statements present income and expenditures in close detail for further analysis. Other supplementary schedules of note include the Vehicle Fleet Analysis (page 25), Equipment Expenditures (page 22) and Capital Improvement Project Expenditures (page 27), which show outlays to date, compared with budget authority.

Note 14 - Connection Fee Transfers from Novato Water To Recycled Water

The following Connection Fee (FRC) reserve amounts have been transferred to the Recycled Water fund:

	Expansion Local Share			SRF RWF	Expansion			Transfer	
	North	South	Central	NBWRA	Loan	SRF Loan	CIP	Total	Executed
FY07				\$29,725				\$29,725	
FY08				\$50,478	\$22,795		*	\$73,273	
FY09				\$150,455	\$22,795			\$173,250	
FY10	\$133,659			\$75,198	\$22,795			\$231,652	\$133,659
FY11				\$133,319	\$22,795			\$156,114	
FY12	\$233,478	\$265,500		\$115,883	\$22,795			\$637,656	
FY13				\$315,023	\$22,795	\$464,572		\$802,390	\$1,970,400
FY14	\$236,291	\$723,525	\$4,024	\$63,035	\$22,795	\$500,529		\$1,550,200	\$1,550,200
FY15		\$17,563	(\$4,024)	\$38,283	\$22,795	\$614,299		\$688,916	\$688,916
FY16	\$0	\$0	\$66,729	\$102,842	\$22,795	\$614,299		\$806,664	\$806,664
FY17_			\$362,524	\$194,636	\$22,795	\$614,299	\$36,687	\$1,230,940	\$1,230,940
_	\$603,428	\$1,006,589	\$429,253	\$1,268,877	\$227,949	\$2,807,998	\$36,687	\$6,380,780	\$6,380,780

Note 15 - Debt Service Coverage Ratio

Debt Service Coverage Ratio is the ratio of net income/(loss) plus interest expense, depreciation, and connection fee revenue for the fiscal year to the sum of the fiscal year's principal and interest payments on the District's total debt.

	FY13	FY14	FY15	FY16	FY17
Net Income/(Loss)	\$2,036,943	\$3,815,820	\$1,050,523	\$378,468	\$583,299
Depreciation	\$2,784,648	\$3,128,302	\$3,183,725	\$3,286,353	\$3,416,507
Interest Expense	\$778,762	\$830,830	\$847,951	\$807,035	\$757,935
Connection Fees	\$876,350	\$152,800	\$801,600	\$278,690	\$1,034,585
Total Available For Debt Service	\$6,476,703	\$7,927,751	\$5,883,799	\$4,750,546	\$5,792,326
Annual Debt Service	\$2,118,314	\$2,448,968	\$2,534,473	\$2,528,938	\$2,527,021
Debt Service Coverage Ratio	3.06	3.24	2.32	1.88	2.29
Bank of Marin Debt Service					
Coverage Calculation ¹	FY13	FY14	FY15	FY16	FY17
Change in Net Assets ²	\$5,035,889	\$1,999,996	\$5,051,394	\$4,517,516	\$6,783,135
Interest Expense	\$778,762	\$830,830	\$847,951	\$807,035	\$757,935
Depreciation & Amortization	\$2,784,670	\$3,128,302	\$3,183,725	\$3,286,353	\$3, 4 16,507
Total Available for Debt Service	\$11,598,266	\$5,959,128	\$10,269,919	\$8,610,903	\$10,957,577
Bank of Marin Annual Debt Service	\$552,800	\$552,800	\$552,800	\$552,800	\$552,800
Bank of Marin Coverage Ratio	20.98	10.78	18.58	15.58	19.82

Note 15 - Deferred Inflow and Deferred Outflow of Resources

Deferred Inflow of Resources is the net difference between projected and actual earnings on pension plan investments, which for FY15 was \$806,744 and is recognized in FY16. Deferred Outflow of Resources is the fiscal year 2016 pension contribution (\$828,792) adjusted by the change in employer's proportion of differences between the employer's contributions and the employer's proportionate share of contributions from the CalPERS Actuarial Report (\$525,463) for a total of \$1,354,255 at June 30, 2016

	Deferred	Deferred
	Outflow	Inflow
FY16 Pension Contributions	\$828,792	
Differences between actual & expected experience	\$42,882	
Changes in actuarial assumptions		(\$405,704)
Net difference between projected & actual earnings on investments		(\$203,384)
Differences between actual contribution & proportionate share of		
contribution		(\$197,656)
Adjustment due to differences in proportions of net pension liability	\$482,581	
Total at June 30, 2016	\$1,354,255	(\$806,744)

Note 16 - Net Pension Liability

The net pension liability is for accounting purposes required by GASB68 and is the difference between the total pension liability (the present value of projected benefit payments to employees based on their past service) and the assets (mostly investments reported at fair value) set aside in a trust and restricted to paying benefits to current employees, retirees, and their beneficiaries.

Net Pension Liability 6/30/2015	\$6,701,264
Reclassify FY15 Contributions to FY16	(\$669,066)
Difference between Expected & Actual Experience	\$58,197
Change in Proportion	\$578,040
Changes in Deferred Outflows & Inflows	\$978,843
Change in Actuarial Assumptions	(\$550,598)
Change in Actual Contribution & Proportionate Share of Contribution	(\$268,248)
Difference between Projected & Actual Earnings on Investments	\$1,791,405
Net Pension Liability 6/30/2016	\$8,619,837

Net Pension Liability (NPL) = Total Pension Liability (TPL) – fiduciary net position (market value of assets)

<u>Pension Expense</u> = service cost + interest on TPL + current period benefit changes - member contributions - expected earnings on plan investments + administrative expenses + recognition of deferred outflows - recognition of deferred inflows

<u>Unfunded Accrued Liability (UAL)</u> is the Actuarial Valuation which relates to funding and is a calculation of Entry Age Normal Accrued Liability and Plan's Market Value of Assets. This District's UAL at June 30, 2015 (latest available) is \$9,371,201.

¹ Per the October 27, 2011 Bank of Marin loan agreement, each June 30, beginning June 30, 2012, the Debt Service Coverage Ratio shall not be less than 1.2 to 1. "Debt Service Coverage Ratio" shall mean the ratio of (i) Borrower's change in net assets plus interest, depreciation, and amortization during the fiscal-year period ending on the Determination Date to the sum of the scheduled principal and interest payments on the Loan during the twelve-month period following the Determination Date.

² See page 9

MEMORANDUM

To: Board of Directors July 28, 2017

From: Drew McIntyre, General Manager

Approve Engineering Technician IV Draftsperson Position Subj:

RECOMMENDED ACTION: Board approve Engineering Technician IV Draftsperson Position

FINANCIAL IMPACT: \$3,000 increase for FY18 and \$10,000 decrease in FY19

Draftsperson Recruitment

Arthur Cantiller (Engineering Tech III) is the current AutoCAD draftsperson for the Engineering Department. He will be retiring in September 2017. In order to prepare for his departure, recruitment for a replacement was initiated on June 14, 2017, and extended through July 5, 2017. The recruitment advertisement was posted using the District's NEOGOV subscription, Baywork, Craigslist, and the District's website. Of the eleven applications received and reviewed, only four initially appeared to have the minimum required qualifications related to AutoCAD. After staff contacted one of these applicants to confirm their qualifications, they indicated they had little AutoCAD experience. Interviews were then scheduled for the remaining three candidates. Prior to the interviews, one candidate emailed staff to indicate they did not wish to pursue the position, leaving two remaining candidates. Of the two candidates, one neglected to attend the scheduled interview, while the last remaining candidate participated in their interview per plan.

The original solicitation was for an Engineering Tech III, whose primary responsibility would be to provide AutoCAD drafting for the Engineering, Construction and Operations departments. Over time however, there will be an increasing need for a staff person to work with Geospatial Information Systems (GIS) since the District has spent the last several years building a GIS database with which to model our entire distribution system. In addition, the District is developing a plan to implement an Asset Management (AM) program in order to more efficiently process work orders, track maintenance and condition assessment information, automate material requisitions, and automate the backflow/cross-connection program all while incorporating GIS. The AM program will be built using the District's GIS. Consequently, the required skill set for Arthur's replacement warrants an Engineering Tech IV given the responsibilities associated with maintaining the GIS database. The sole remaining job candidate has excellent qualifications including over 20 years of AutoCAD experience and 10 years of GIS experience. Staff recommends the Board approve an Engineering Tech IV

position for the new draftsperson. If approved, staff will proceed with hiring the current job candidate at the Engineering Tech IV level which is commensurate with both their qualifications as well as District need.

Engineering Department Engineering Technician History and Cost Impacts

For many years the Engineering Department was staffed with three Engineering Technician (ET) positions, 2- ET IV's and 1-ET III. In 2011, one of the ET IV positions became vacant was has not been filled. The below tabulation compares ET staffing levels since 2011 and shows the proposed change to hire a draftsperson at the ET IV level and leave the current ET III position vacant.

Positions	2011	2012-2017	Proposed
Engineering Technician IV	Filled	Filled	Filled
Engineering Technician IV	Filled	Vacant	Filled
Engineering Technician III	Filled	Filled	Vacant
Total No. of ET Positions	3	2	2

The approved FY18 budget assumed the new draftsperson would be hired at the ET III beginning salary step level. Hiring at the ET IV 18-month salary step level will result in an increase of \$3,000 to the FY18 Operations Budget due to the higher salary offered. However, FY19 budget costs would be reduced by \$10,000 when compared to Mr. Cantiller's current compensation costs due to the fact that the proposed candidate would be a new public employee hired under the California Public Employee's Pension Reform Act of 2013 (PEPRA).

RECOMMENDATION:

Board approve the Engineering Technician IV Draftsperson Position

MEMORANDUM

To: Board of Directors

July 28, 2017

From: David L. Bentley, Auditor-Controller

Subj: Debt Management Policy

t:\ac\word\policies\debt management policy cover memo.docx

RECOMMENDED ACTION: Initial Review

FINANCIAL IMPACT: None

Background

Senate Bill 1029 (SB 1029), signed into law in September 2016, requires that all local agencies adopt a Debt Management Policy, that debt issued is consistent with said policy, and that the use of debt is integrated into the agency's capital improvement projects (CIP) program and/or budget. SB 1029 also requires debt issuers to file a report to the California Debt and Investment Advisory Commission (CDIAC) at the end of each fiscal year detailing any new debt authorized, debt outstanding, and use of debt proceeds. A draft Debt Management Policy (attached) was prepared by District staff, with input from bond counsel Jones Hall and District legal counsel.

SB 1029 requires the policy to include all of the following:

- A. The purposes for which the debt proceeds may be used;
- B. The types of debt that may be issued;
- C. The relationship of the debt to, and integration with, the issuer's capital improvement program or budget;
- D. Policy goals related to the issuer's planning goals and objectives;
- E. The internal control procedures that the issuer has implemented, or will implement, to ensure that the proceeds of the proposed debt issuance will be directed to the intended use.

Implication

Under Section D, policy goals, the staff has included the following language, which is not required, but deemed appropriate:

It is a policy goal of the District to protect ratepayers and constituents by utilizing conservative financing methods and techniques so as to obtain the highest practical credit rating, with a goal of at least AA, and thereby achieve the lowest practical borrowing costs. To that end, the District intends to maintain an average debt service coverage ratio of 1.5.

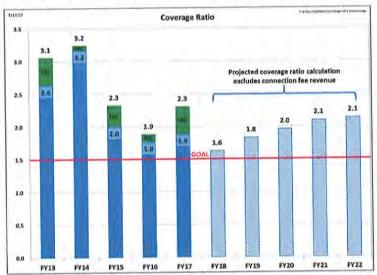

Note that this self-imposed 1.5 coverage ratio goal, while admirable, could limit the District's ability to issue new debt. Coverage ratio is a measure of the District's ability to meet its financial obligations. In broad terms, the higher the coverage ratio, the better the ability of the District to fulfill its obligations to its lenders, and therefore the higher its credit rating. The coverage ratio is calculated as:

Lenders typically require a minimum coverage ratio of 1.1. The chart below shows that the District has historically exceeded a 1.5 ratio.

The District currently has \$27.7 million in debt, and the 5-year financial plan included in the just adopted FY18 budget includes \$27.5 million in additional debt for the following projects:

Budgeted CIP	Million \$
Recycled Water Central	\$6.6
Advanced Metering	\$5.5
Admin Office Remodel	\$12.0
WM Water Solids Handling	\$0.6
WM TP Rehabilitation	\$2.8
	\$27.5

The FY18 through FY22 forecast below includes debt service for the \$27.5 million in planned projects, and assumes the annual 5% water rate increases and water sales volume increases (from 2.3BG in FY17 to 2.7BG in FY19) incorporated in the 5-year financial plan.

At the General Manager's request, the proposed coverage ratio goal will be tested for sensitivity pertaining to forecast water rate and sales volume increases, and will be presented for additional review and consideration at the August 15 meeting.

DRAFT

Initial Review: August 1, 2017

NORTH MARIN WATER DISTRICT

POLICY: DEBT MANAGEMENT BOARD POLICY NUMBER: 47

INTRODUCTION

This Debt Management Policy ("Debt Policy") of the North Marin Water District ("District") sets forth debt management objectives for the District and provides policy guidelines to decision makers.

Implementation of the Debt Policy will help to ensure that the District maintains a sound debt position and protects its credit quality, as well as maintains compliance with California Government Code Section 8855 (i), which requires issuers of public debt to certify with the California Debt and Investment Advisory Commission (CDIAC) that the issuer has adopted a local debt policy concerning the use of debt, and that any proposed debt issuance is consistent with said policy.

The Debt Policy may be utilized by staff with the discretion to deviate as determined appropriate by the General Manager to affect the prudent management of the debt and capital financing needs of the District.

POLICY STATEMENT

A. Purposes for Which Debt Proceeds May Be Used

- (i) <u>Long-Term Debt</u>: Debt having a maturity of more than one year may be issued to finance the construction, acquisition, and rehabilitation of capital improvements and facilities, equipment and land to be owned by the District when it is appropriate to spread the financing over the useful life of the project to be financed.
 - Long-term debt may also be used to refinance outstanding debt, fund capitalized interest, costs of issuance, required reserves, and other financing related costs which may be capitalized.
- (ii) <u>Short-Term Debt</u>: Debt having a maturity of one year or less may be issued to provide financing for the District's operational cash flows in order to maintain a steady and even cash flow balance.

B. Types of Debt That May Be Issued

The following types of debt are allowable under this Debt Policy:

General obligation bonds

- · Revenue bonds and certificates of participation
- · Loans from a bank of state agency
- Bond, grant or revenue anticipation notes
- · Lease-purchase transactions
- Land-secured financings, such as tax assessment bonds issued under the Mello-Roos
 Community Facilities Act

Debt shall be issued as fixed rate debt unless the District makes a specific determination as to why a variable rate issue would be beneficial to the District in a specific circumstance.

The District shall issue debt with an average life less than or equal to the average life of the assets being financed.

To preserve flexibility and refinancing opportunities, District debt will generally be issued with call provisions which enable the District to retire the debt earlier or enable the refunding of the debt prior to maturity.

The District Board may from time to time find that other forms of debt would be beneficial to further its public purposes and may approve such debt without an amendment of this Debt Policy.

C. Relationship of Debt to Capital Improvement Program and Budget

The District is committed to long-term capital planning and intends to issue debt for the purposes stated in this Debt Policy and to implement policy decisions incorporated in the District's Capital Improvement Projects budget.

The District shall strive to fund the upkeep and maintenance of its infrastructure and facilities due to normal wear and tear through the expenditure of available operating revenues. The District shall seek to avoid the use of debt to fund infrastructure and facilities improvements that are the result of normal wear and tear.

The District shall integrate its debt issuances with the goals of its capital improvement program by timing the issuance of debt to ensure that projects are available when needed in furtherance of the District's public purposes.

The District shall seek to avoid the use of debt to fund infrastructure and facilities improvements in circumstances when the sole purpose of such debt financing is to reduce annual budgetary expenditures.

The District shall seek to issue debt in a timely manner to avoid having to make unplanned expenditures for capital improvements or equipment from its general fund.

D. Policy Goals Related to the District's Planning Goals and Objectives

The District is committed to long-term financial planning, maintaining appropriate reserve levels and employing prudent practices in governance, management and budget administration. The District intends to issue debt for the purposes stated in this Debt Policy and to implement policy decisions incorporated in the District's annual operations budget.

It is a policy goal of the District to protect ratepayers and constituents by utilizing conservative financing methods and techniques so as to obtain the highest practical credit rating, with a goal of at least AA, and thereby achieve the lowest practical borrowing costs. To that end, the District intends to maintain an average debt service coverage ratio of 1.5.

The District shall maintain strict compliance with covenants regarding coverage of annual debt service by net revenues embodied in the terms of debt instruments. This will support strong bond credit ratings and provide annual revenues to fund capital improvements.

The District shall maintain its strong ratings through prudent fiscal management and consistent communications with the rating analysts. The General Manager shall manage relationships with the rating analysts assigned to the District's credit, using both informal and formal methods to disseminate information. Communication with the rating agencies shall include:

- Full disclosure, on an annual basis, of the financial condition of the District;
- A formal presentation when requested by the rating agencies, covering economic, financial, operational and other issues that impact the District's credit;
- Timely disclosure of major financial events that impact the District's credit; and
- Timely dissemination of the Comprehensive Annual Financial Report, following its acceptance by the District's Board of Directors.

The District will comply with applicable state and federal law as it pertains to the maximum term of debt and the procedures for levying and imposing any related rates, charges and tax assessments.

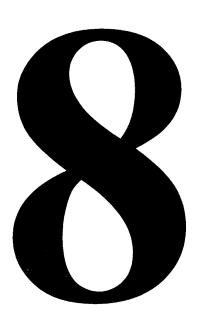

E. Internal Control Procedures

When issuing debt, in addition to complying with the terms of this Debt Policy, the District shall comply with any other applicable policies regarding initial bond disclosure, continuing disclosure, post-issuance compliance, and investment of bond proceeds.

The District shall fully budget all its debt service obligations annually.

District accounting staff shall maintain records documenting the use of debt proceeds and shall prepare external reports as required by State law.

Proceeds of debt will be held either (a) by a third-party trustee or fiscal agent, which will disburse such proceeds to the District upon the submission of written requisitions by the District Auditor-Controller, or (b) by the District, to be held and accounted for in a separate fund or account, the expenditure of which will be carefully documented by the District.

DISBURSEMENTS - DATED JULY 27, 2017

Date Prepared 7/25/17

The following demands made against the District are listed for approval and authorization for payment in accordance with Section 31302 of the California Water Code, being a part of the California Water District

Seq	Payable To	For	Amount
P/R*	Employees	Net Payroll PPE 7/15/17	\$137,764.77
EFT*	US Bank	Federal & FICA Taxes PPE 7/15/17	63,379.51

Self-Insured Workers' Comp - 4th Quarter Status Report t:\ac\word\personnel\wc\self ins status 0617.docx Subj:

RECOMMENDED ACTION: None

FINANCIAL IMPACT: Cumulative Savings of \$747,719

The District returned to self-insuring its workers compensation liability effective July 1, 2011, after the low-cost proposal for first-dollar workers' compensation coverage increased 20% over the prior year, to \$159,331. The avoided-cost since returning to self-insurance is calculated at \$535,021. When the Reserve for Future Medical (which is the estimated cost to fully resolve open claims) is added, the total cash outlay avoided to date, including interest earned on the cost avoided, is \$747,719. This cash is set-aside in a reserve for future claims.

In FY17, the District incurred six claims. Attached are charts showing a 10-year history of annual claims cost (average \$67,000 per year) and 10-year history of claims frequency (average 8 claims per year).

	FY12 through		-	W1.64 M	.
	FY14	FY15	FY16	FY17	Cumulative
Premium Avoided	\$641,669 ¹	\$203,722 ²	\$212,135 ³	\$191,000 ⁴	\$1,248,526
Self-Insurance Cost					
Medical/Indemnity Cost	(173,381)	(1,324)	(7,772)	(126,943)	(309,420)
Third Party Administration	(36,000)	(12,000)	(12,000)	(12,000)	(72,000)
Excess Insurance Premium ⁵	(142,584)	(50,708)	(54,462)	(58,638)	(306,392)
Legal/Miscellaneous	(20,597)	(1,048)	(2,946)	(1,102)	(25,694)
Net Cost Avoided	\$269,106	\$138,642	\$134,955	(\$7,684)	\$535,021
Reserve for Future Medical	0	0	0	192,122	192,122
Total Cash Outlay Avoided	\$269,106	\$138,642	\$134,955	\$184,438	\$727,142
Interest on Cash Outlay Avoided	1,478	3,953	6,022	9,124	20,577
Cash Savings	\$270,584	\$142,595	\$140,977	\$193,562	\$747,719

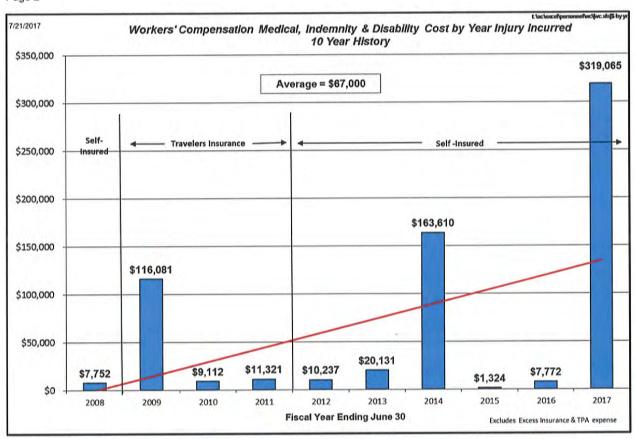

Proposed annual premium of \$159,331 (FY12), \$170,574 (FY13) and \$311,764 (FY14).

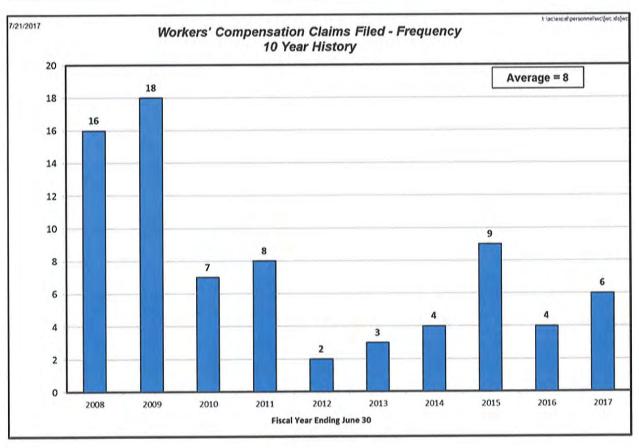

² Alaska National Insurance Company was the low cost proposal with an annual premium of \$203,722.

³ New York Marine and General Insurance Company was the low cost proposal with an annual premium of \$212,135.

⁴ Allied World Assurance was the low cost proposal with an annual premium of \$191,000.

⁵ Excess Insurance Protects the District against Catastrophic Loss Exceeding \$750,000 per claim.

MEMORANDUM

To: Board of Directors

July 28, 2017

From:

Nancy Williamson, Senior Accountant

Subject:

Disposal of Surplus Equipment

x.\maint sup\2017\bod\bod memo vehicle auction 617 - final doc

RECOMMENDED ACTION: None

FINANCIAL IMPACT: \$8,400 income

As part of the adopted FY 2016/17 Equipment Budget, staff identified the need to replace two half-ton pickup trucks and purchase a new track loader with trailer. At midyear staff identified the need to advance the replacement of the 1 ton service vehilce # 507 and defer one of the half-ton pickups documented in a memo to the Board on January 17, 2017.

Staff sold the surplus equipment through 1st Capitol Auction, a bonded resale agent located in Vallejo on June 23, 2017 and the actual amount received (sale price less 4% commission) is shown below. This was the seventh year we have sold equipment through this vendor, always with good results.

Equip. No.	Description	Mileage	Est. Auction Value	Actual Amount Received
59	2005 Ford Ranger pickup	127,821	\$2,500	\$480
507	2008 Ford F350 4x4 1 ton utility truck	110,581	\$5,000	\$7,200
	Compact Tractor sweeper attachment		\$500	\$720
	TOTAL		\$8,000	\$8,400

In Your Town for July 20, 2017

CORTE MADERA

Photography exhibit to showcase rocks

The work of local photographer Amanda Tomlin will be displayed from July 22 to Sept. 14 at the Corte Madera library.

Tomlin's work focuses on rock formed by time, sea and weather.

Photos will be on display in the Friends of the Corte Madera Library community room. The library is at 707 Meadowsweet Drive.

More information is available at 415-924-3515.

FAIRFAX

Poets to read work during library event

The Marin Poetry Center summer traveling show will be at the Fairfax library on July 25.

The event will feature five local poets reading their work from 7 to 8:30 p.m.

The library is at 2097 Sir Francis Drake Blvd. More information is available at call 415-453-8151.

NOVATO

'Zootopia' screening planned at city green

The city will offer an outdoor screening of "Zootopia" on Aug. 5 on the Civic Green.

The film will start after sunset, around 8:30 p.m., at 901 Sherman Ave. Popcorn and drinks will be available for purchase.

Before the show, the Novato Police Department will hold a vehicle demonstration at 7 p.m. and a dog demonstration at 7:30 p.m.

More information is available at novato.org.

Water district seeks applicants for board

The North Marin Water District is seeking applicants for a seat on the board of directors.

The appointee will serve until the next election in November 2018.

The board will review letters of interest and interview applicants at 6 p.m. Aug. 22.

Applicants must be registered voters living in the Novato area, Point Reyes Station, Olema, Bear Valley, Inverness Park, Paradise Ranch Estates or Oceana Marin areas in West Marin.

Applicants should submit a letter of interest describing experience, educational background and previous public service. The deadline is 5 p.m. Aug. 14.

More information is available at 415-897-4133.

An Unconventional New Captain for California's Water Agency

Grant Davis of the Sonoma County Water Agency talks about being tapped to be the director of the California Department of Water Resources. He brings an environmentalist background to a job long dominated by engineers.

Excavators remove rock along the lower chute at the Lake Oroville flood control spillway site in Butte County, California. Incoming director for California's Department of Water Resources Grant Davis says that reconstruction of Oroville's spillway with be a number-one priority. Brian Baer/California Department of Water Resources

CALIFORNIA GOV. JERRY Brown last week appointed Grant
Davis as director of the state's Department of Water
Resources. Davis, 54, general manager of the Sonoma County
Water Agency, brings an unusual resume to the job.

With a degree in political science from the University of California, Berkeley, he had never worked for a water utility until joining the Sonoma County agency in 2007 as assistant general manager. Previously, he spent a decade as executive director of The Bay Institute in Novato. The non-profit environmental group is a leading critic of WaterFix, Brown's \$17 billion proposal to build two gigantic water diversion tunnels under the Sacramento-San Joaquin Delta.

The controversial tunnels would be built and operated by the DWR, so Davis will have direct oversight of the project. Given his background in environmental advocacy, will he take the project in a new direction?

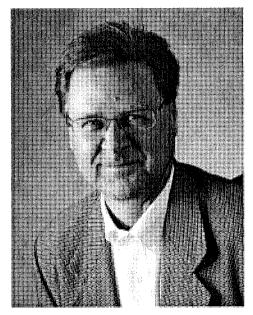

In other arenas, Davis's priorities are very much in line with the governor's. At the Sonoma County agency, he has been a leader in water conservation and recycling, diligent groundwater management and greenhouse gas reduction. He has also pushed for reforms to conventional reservoir operating rules to respond to weather events.

Davis assumes the DWR director's job on Aug. 1, and Water Deeply recently talked to him about his plans.

Water Deeply: Why do you think you were chosen for this job?

Grant Davis: I've yet to determine exactly why [laughing]. But I do believe it's the fact that I have a combination of a strong background on Bay-Delta watershed issues as head of The Bay Institute, and I've been working on the federal level for many years with members of Congress. And now running a wholesale water agency, the largest in Northern California.

That combination, I think, is what the governor was wanting to bring into this particular transition period. It is a rather unique perspective, one that makes me particularly aware of

Grant Davis will assume the role of director of California's Department of Water Resources on August 1. (Photo Courtesy Sonoma County Water Agency)

different stakeholder points of view and probably capable of bringing out the best in different regions on how to approach a sustainable water supply and protect our vital public resources.

Water Deeply: What do you plan to bring to the job?

Davis: First and foremost, I'm going to be coming in brand new and I'm looking forward to meeting with the

key staff and hearing a bit more about the institutional frameworks inside DWR. It's a large agency with a very broad scope — along the lines of the work I do on a smaller scale at Sonoma County: flood control, water supply, habitat.

So really, I think the governor is looking for somebody with a particular ability to take a fresh look at where we are currently in this type of transition, and be a steady, capable manager and be looking for opportunities.

But I will just tell you, on the practical side, we have an infrastructure that is in need of new investment. One of my first priorities is to get up to Oroville Dam and make sure we get the spillway back in operation by Nov. 1 and ready for the winter.

I'm very excited about forecast-informed reservoir operations. We've been meeting in D.C. with the director of the National Weather Service and a whole team

at NOAA[National Oceanic and Atmospheric Administration] and the Office of Atmospheric Research to better understand our extreme weather events, which are atmospheric rivers. There's not enough support to understand the dynamics at play. We have been leading a \$19 million effort called Advanced Quantitative Precipitation Information, funded by DWR: a series of five radars throughout the Bay Area aimed at where atmospheric rivers come in – at the 5,000-feet level – instead of the 10,000-feet level where most forecast radars are aimed.

In our own case, I'm using my existing reservoir, Lake Mendocino, as an example. Back in 2012, the Army Corps of Engineers had to release about 20,000 acre-feet of water because of a rule curve that's rather dated. And we didn't get another drop of water, realistically, for another year. That's half the water we were delivering in a given year, and it put us in a whole world of hurt. I did not have enough water to protect fish below Lake Mendocino. Had we had better forecasting and a rule curve that was a bit more adaptable based on current conditions, that could have been avoided.

Water Deeply: What's wrong with California water, in your opinion?

Davis: I'm not going to say there's anything wrong with California water. It's become very clear we have to secure our water supply and we have to use the best available science to do that. We have to look at how habitat needs require a certain amount of water supply, and we have to look at recapture and recharge.

There's so much we have at our disposal. We have some of the brightest engineers, the smartest academics. I'm confident we're going to come up with pathways that will secure our water supply and protect our environment. This is a time when we need to be smart and efficient.

Number One, I want to secure our water supply for future generations. That's critical. We must put every drop of water to its highest beneficial use to secure our water supply.

Obviously, what's in play is the California Water Action Plan and the WaterFix, and I will be deeply involved in that effort, supporting the governor's position.

Water Deeply: What is your position on the Delta tunnels (WaterFix) project?

Davis: The governor supports the WaterFix. I'm going to support the WaterFix, but with a caveat — and that is, we have a long way to go. There is a lot of work we have to do on a comprehensive water fix. Most notably, you have to get folks who are going to be the beneficiaries to agree to fund that. I am looking, like I did at The Bay Institute, for a comprehensive view that is going to both protect and restore the San Francisco Bay Delta and secure the water supply for future generations. It's a true commitment to balancing those competing interests.

It may be one of those opportunities to come in with a fresh pair of eyes and participate in a very longstanding effort to protect the Delta and provide additional water supply. The Bay Institute has been noted for bringing science and technological capability to the table on behalf of the environmental community. I plan on bringing that point of view into the equation to help ensure we come up with a sustainable solution.

Water Deeply: You've been a big advocate for water conservation programs. Will that continue at DWR?

Davis: Yes, there's more that can be done. We have to incentivize it.

I believe, because I've lived and breathed it, there are programs that can be enacted at the local level that can combine to meet our state objectives. I just happen to subscribe to the point of view that the most reliable source of water is water you already have — and being more efficient with that before you go to the expense of building additional supply.

But at the same time, it may not be enough to meet growing needs. I'm looking at every tool in the toolbox to manage the water we need in California. We are managing through extremes, and that's getting more and more difficult.

Water Deeply: You've been very involved in water recycling. How will this interest transfer over to DWR?

Davis: I'm a huge fan of making sure you have broad support for recycled water. That requires state and federal dollars, leveraging on local dollars, to put these projects into place. It's very reliable, drought-proof water.

In my own case at Sonoma County Water Agency, we've had a strong relationship with the agricultural community. We ended up building an 8-mile pipeline from one of our treatment plants and bringing a reliable supply of tertiary-treated water to wineries that were over-reliant on groundwater. I think there's more of those to come with additional support from local and state resources.

PRESS RELEASE

For Immediate Release

July 19, 2017

Water Agency General Manager Grant Davis Appointed to Head California Department of Water Resources

(Santa Rosa, CA) – Sonoma County Water Agency General Manager Grant Davis today was appointed by Governor Jerry Brown to become the Director of the California Department of Water Resources (DWR) effective August 1, 2017. Acting DWR Director William R. Croyle retired on July 1, 2017.

DWR plays an important role in sustaining California's economy, environment and quality of life. DWR operates and maintains the California State Water Project (SWP), which provides drinking water and water to farms. Other programs work to preserve the natural environment and wildlife, monitor dam safety, manage floodwaters, conserve water use, and provide technical assistance and funding for projects for local water needs. DWR's major responsibilities include overseeing the statewide process of developing and updating the California Water Plan (Bulletin 160 series); protecting and restoring the Sacramento-San Joaquin Delta; regulating dams, providing flood protection, and assisting in emergency management; educating the public about the importance of water and its proper use; providing technical assistance to service local water needs; and planning, designing, constructing, operating and maintaining California's State Water Project.

"The Water Agency is known around the world for its innovative water supply initiatives and state-of-the-art sustainability programs," said Sonoma County Water Agency Board of Directors Chairwoman Shirlee Zane. "Grant Davis provided the leadership and tenacity necessary to make these and other accomplishments happen at the Water Agency. Our community benefited from his ability to work with all stakeholders to ensure our region continues to provide affordable, clean drinking water while meeting critical environmental enhancement projects. The State of California is gaining a true water professional who can think outside of the box while working with everyone in the room." The Water Agency's Board of Directors, which also serves as the County's Board of Supervisors, will take action in the near future to select a successor to Mr. Davis. In the meantime, the Water Agency's Chief Engineer and two Assistant General Managers will ensure a seamless transition occurs until the Board takes formal action.

Read the Governor's statement here.

"I am honored to have been appointed by Governor Brown to work with the dedicated people at the Department of Water Resources," said Davis. "To my colleagues at the Water Agency, I can't say thank you enough for your unparalleled professionalism and dedication to our community and the

organization. I am also appreciative of the Water Agency's Board of Directors who provide the leadership and support needed to secure our future water supply."

Mr. Davis joined the Water Agency in 2007 as the assistant general manager and became its general manager in 2010. As the general manager of the Water Agency, Mr. Davis worked with more than 280 employees and is responsible for the Water Agency's core functions of providing drinking water to over 600,000 residents in portions of Sonoma and Marin counties, wastewater management for 60,000 customers, maintaining nearly 100 miles of streams and detention basins for flood protection, and restoring habitat for three federally listed fish species in the Russian River.

For nearly a decade, Mr. Davis has continued to implement nationally praised sustainability and western water initiatives, including being recognized by the White House last year for the Water Agency's efforts in climate adaptation, regional recycled water development, and its Forecast Informed Reservoir Operations initiative. Mr. Davis also implemented the Water Agency's Carbon Free Water by 2015 initiative and renewable energy program called the Sonoma County Energy Independence Program. In 2015, the Water Agency has contracted to procure 100 percent of its electricity needs through renewable and carbon free resources, thus achieving a carbon neutral electricity supply to power its system.

Under Mr. Davis' leadership, the Water Agency continues to implement a Biological Opinion on the Russian River which has resulted in the creation of the National Oceanic and Atmospheric Administration's first Safe Harbor Program agreement. Other major achievements of Mr. Davis' included the development of the North Coast and Bay Area Integrated Regional Water Management Programs, in which \$19 million was secured to support the installation of a new regional Bay Area weather forecasting satellite system.

Prior to joining the Water Agency, Mr. Davis was Executive Director of The Bay Institute, a science-based nonprofit, dedicated to protecting the San Francisco Bay-Delta Watershed and improving water management in California. Mr. Davis also worked for Congresswoman Lynn Woolsey, State Senator Milton Marks, and Assemblywoman Lucy Killea.

Mr. Davis currently serves on the University of California President's Advisory Commission, for the Division of Agriculture and Natural Resources. In addition, Mr. Davis is the president of WateReuse California, a board member of the Bay Planning Coalition, and a member of the San Francisco Bay Restoration Authority Advisory Committee. Mr. Davis received his BA in political science from the University of California at Berkeley.

Novato approves language for anti-sprawl ballot measure

The green space of Bowman Canyon Ranch abuts properties at the city limit along Novato Boulevard at the Urban Growth Boundary in Novato. (James Cacciatore/Special to the Marin Independent Journal)

By Stephanie Weldy, Marin Independent Journal

POSTED: 07/17/17, 8:17 PM PDT UPDATED: 14 MINS AGO0 COMMENTS

The Novato City Council has approved ballot language for a measure to prevent urban sprawl.

The issue before voters Nov. 7 is whether prevent development on surrounding open space for an additional 24 years, to 2042. The current urban growth boundary protection in place, approved by voters in 2007, expires in November.

"I think it's fantastic," said Mayor Denise Athas. "I was inclined to work with the environmental community to come up with language strong enough to pass because it's such an important measure to keep our green boundaries intact."

The measure restricts urban expansion by prohibiting city annexation of property beyond the city limits. Growth is confined to areas already served by sewer, water and other municipal services.

Council members signed off on the new ballot language July 11.

Local environmentalists initially pushed for the protections to be in place in perpetuity, but said they were satisfied with the longer term.

"We appreciate the 24 years," said Susan Stompe, with Marin Conservation League.

The council also approved revised terms that could keep the city away from potential legal challenges.

Under the existing measure, the city does not issue permits to property owners outside Novato limits to connect to water, sewer and other utility services.

Exemptions are in place for scenarios including construction of affordable housing, if no other land inside city limits is available, as well as for public parks, schools and open space projects. Permits are also allowed for issues related to public health and safety, including failing septic tanks.

Bob Brown, Novato community development director, said the city has permitted three exemptions in the last 20 years because of failing septic tanks.

The stance places the city in a position to potentially face legal challenges, Brown said. The county and utility districts often grant permits that allow encroachment into city limits but the city will refuse to grant needed permits.

"The (Urban Growth Boundary) ordinance doesn't regulate the permitting of these agencies and in many cases we find ourselves in cross purposes," he said.

The council approved the new proposal to include language saying the city would not oppose utility connections to residential properties that exist on or before Nov. 7, the date of the election.

Property owners could build a single-family home and connect it to sewer services if the county requires a sewer connection. Property owners would also have to enter into a deed restriction with the city that would preclude future subdivision of their parcel.
