## West Marin Water Supply

Chris DeGabriele, General Manager

Water supplied by North Marin Water District (NMWD) to our West Marin customers is diverted from shallow wells adjacent to Lagunitas Creek near the U.S. Coast Guard Housing Facility in Point Reyes Station. The State Water Resources Control Board (SWRCB) has determined that Lagunitas Creek is fully appropriated in summer months of dry years and has ordered NMWD to find an alternative source of water during July through October of dry years. (A dry year occurs when total precipitation from October 1 to April 1 is less than 28 inches measured at Marin Municipal Water District's Kent Lake.) NMWD has complied by purchasing a portion of the more senior Giacomini Ranch water right to use during those periods.

Rainfall at Kent Lake through April 1, 2011 totals over 45 inches. While this will not be a dry year, NMWD encourages West Marin customers to use water efficiently and participate in NMWD Water Use Efficiency Programs (See back page).
