

NORTH MARIN WATER DISTRICT
REGULATION 33
RELOCATION REQUIRED BY CONSTRUCTION
OF PUBLIC DRAINAGE WORKS

The District will at its own expense undertake reasonable and normal relocation of its water distribution lines as required by routine drainage projects undertaken by a public agency. Extensive relocation of water distribution lines or relocation of a major transmission line, pumping station, regulating structures and appurtenances, will be undertaken by the District only on a cost-sharing basis mutually satisfactory to the District and the public agency undertaking the drainage project.
