

BACKFLOW PREVENTION ASSEMBLY GENERAL TESTERS – 2022

The testers on this list have demonstrated their ability to field test Backflow Prevention Assemblies to the satisfaction of the CA-NV section of the American Water Works Association. North Marin Water District assumes no liability for the abilities, performance, or quality of work performed by individuals listed. The company or individual utilizing the Backflow Prevention Assembly Tester should determine that the tester maintains liability insurance. If you choose a tester who is not on this list, they will need to submit copies of their current backflow certification as well as a copy of their current test kit calibration. Backflow repairs and reports submitted without the appropriate certification will not be considered complete until proof of certification has been received by NMWD. For information contact NMWD Cross Connection Control Dept. at 415-761-8974 or backflow@nmwd.com.
