

NOTICE OF PUBLIC HEARING

REGARDING PROPOSED RATE INCREASES AND RESTRUCTURED DROUGHT SURCHARGES

For the Novato Service Area

**NORTH MARIN
WATER DISTRICT**

This Notice provides information about proposed increases to North Marin Water District’s water rates and charges for the Novato Service Area and restructured drought surcharges. The Board of Directors will hold a public hearing at which public comments will be considered and written protests will be counted before the Board votes on the proposed increases.

NEW HEARING DATE: **Tuesday, June 28, 2022**
TIME: **6:00 p.m.**
VIRTUAL LOCATION*: **Zoom Meeting**
<https://us02web.zoom.us/j/82191971947>
Meeting ID: 821 9197 1947 Password: 466521

The District proposes increasing revenue for fiscal year 2022-2023. If approved at the public hearing on June 28, 2022, the new rates and rate structure changes will go into effect on July 1, 2022.

**Due to ongoing COVID-19 related risks to public health and safety, the public hearing is scheduled to be conducted via Zoom utilizing the link above. If conditions change, information on a physical location for an in-person public hearing will be provided on the District website at www.nmwd.com.*

REASONS FOR THE PROPOSED RATE INCREASE

The key reasons that a 6% rate increase is needed are described below.

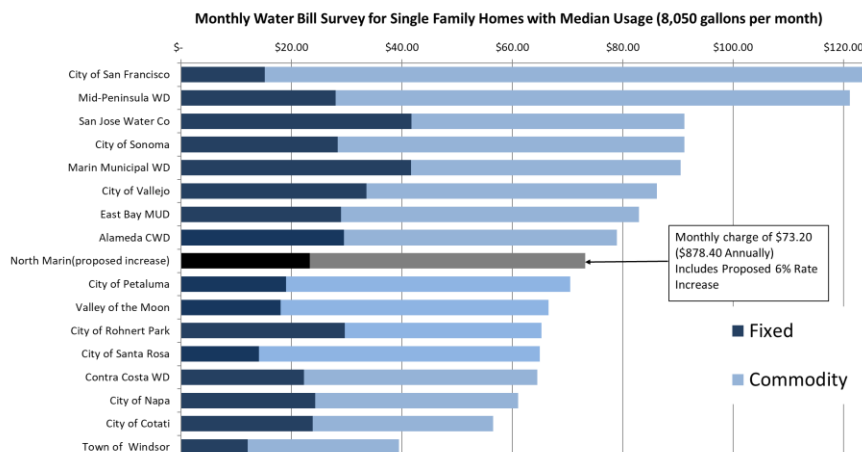

Increased investment in water facilities. The District must continue to invest in facility upgrades and replacements with an approximate cost of \$4 million per year. These investments benefit the system’s fire protection, water supply and aging infrastructure and help to address the need to properly maintain the District’s \$132 million system of pipelines, pumps, reservoirs, treatment plants, valves, hydrants, laboratory, monitoring systems, buildings and more.

Rising costs to purchase imported water. The District typically imports 75% of its water from Sonoma County Water Agency. The cost of purchasing imported water accounts for 30% of the budget and the wholesale water supplier has forecast that the costs will continue to increase by 6% every year.

Impact of inflation on all costs. The proposed revenue increase is designed to meet all the costs of providing water service. This includes purchasing, treating, and delivering safe, high-quality, reliable water to your home or business without fail, every day and around the clock.

RATE COMPARISON

Our rates are the lowest in Marin County and at the median for water agencies around the Bay Area region.

Details of Proposed Rate Increases

Proposed 6% rate increase.

Novato Water - North Marin Water District is proposing a 6% rate increase to cover the increasing costs of providing quality potable water service to our Novato Water service area customers.

Recycled Water - A 6% rate increase is proposed for the Recycled Water System.

The typical residential customer (approximately 56% of all customers) will pay about \$4.50 more per month if the changes are approved (\$9.00 on the bi-monthly bill).

PROPOSED BI-MONTHLY FIXED SERVICE CHARGES

The Bi-Monthly Fixed Service Charge includes an account charge and a meter charge. The meter charge is based on an industry standard that apportions costs based on meter size and flow capacity. Most single-family residential customers have a 5/8" meter. Residential accounts that have a 1" meter due to fire requirements, but would otherwise have a 5/8" meter, are charged at the 5/8" meter rate.

To learn how the proposed rates will affect your specific water bill, check out the District's water cost calculator, available at nmwd.com/account/annual-cost-calculator. The maximum rates that may be imposed are shown in this document. Prior to implementing the rates, the Board of Directors may choose to implement the full amount or less, but not more.

PROPOSED RESTRUCTURED DROUGHT SURCHARGES

The proposed restructured drought surcharges are implemented only when the Board declares a Stage 2 (currently in effect) through Stage 6 water shortage as defined by Novato Water's Water Shortage Contingency Plan. The temporary drought surcharges would be applied to the potable water usage rates (but not the fixed monthly service charges), and the amount of the surcharge would vary with the amount of required water use reductions. The temporary drought surcharges are expressed as a percentage of the then-current water usage rate. The 2022 drought surcharge rate review can be found at <https://nmwd.com/wp-content/uploads/2022/03/2022-Novato-West-Marin-Water-Drought-Surcharge-Review.pdf>

PROPOSED TIERED QUANTITY (USAGE) CHARGES

The Tiered Quantity (Usage) Charges has three tiers that reflect the costs of the different sources of water.

Tier 1 (1-262 gallons per day - GPD) is based on the cost of imported water. Tier 2 (263-720 GPD) is based on the cost of locally treated water from Stafford Lake. Tier 3 (>720 GPD) is based on the cost of locally treated water plus the cost of the District's conservation program, which is paid by those customers that use the most water. Usage charges include an **elevation zone charge** to recover the costs of pumping water to higher elevations.
