\$125* RESIDENTIAL HIGH-EFFICIENCY TOILET REBATE

NMWD is offering residential customers up to \$125* rebates for replacing older, non-water-conserving toilets (those that were manufactured to flush more than 1.6 gallons per flush) with new, EPA WaterSense labeled High-Efficiency Toilets (HET). HETs use an average of at least 20% less water than standard 1.6 gallon per flush toilets. All toilets sold in California (since 2014) are EPA certified WaterSense.

PROGRAM REQUIREMENTS

Applicants Must:

- Purchase and install an EPA WaterSense labeled High-Efficiency Toilet (HET) between January 1, 2023 and December 31, 2023. To see a list of qualified EPA WaterSense labeled toilets visit http://www.epa.gov/WaterSense/product_search.html.
- Own or rent a residential dwelling within the District's Novato or West Marin Service Areas. (If you are a renter, you need written permission from the owner to receive the rebate).
- Call or email the District's Water Conservation Office for participation details and to pre-qualify for the rebate.
- Replace **ALL** toilets that use more than 1.6 gallons per flush in the dwelling. (Customers changing toilets manufactured to flush 1.6 gallons per flush, or new toilets installed after 1993, will not be eligible for rebate)
- \$125* rebate level good through December 31, 2023 or until funds are depleted. Completed application and receipts must be received by December 31, 2023.
