# **Budgets**

#### Novato & West Marin Service Areas

Fiscal Year 2023 – 2024 Adopted June 20, 2023

NORTH MARIN

BILL DROP

WATER DISTRICT 999 RUSH CREEK PLACE

### Introduction:

This document contains the fiscal year 2023/2024 budgets for North Marin Water District's various enterprise service areas located in Marin County, covering 100 square miles as listed below.

- Potable Water Service: Treatment, Transmission, Distribution, and Fire Services. Novato West Marin (Point Reyes Station, Inverness Park, Olema, Bear Valley, Silver Hills & Paradise Ranch Estates)
- Recycled Water Treatment, Transmission and Distribution: Novato
- Sewage Collection, Treatment & Reuse/Disposal: Oceana Marin

Accompanying the operating budgets are capital improvement project expenditures and equipment purchases for the fiscal year. Questions regarding these budgets may be directed to Julie Blue, Auditor-Controller, at jblue@nmwd.com or 415-761-8950.

### **Mission Statement:**

Our mission is to meet the expectations of our customers in providing potable and recycled water and sewer services that are reliable, high-quality, environmentally responsible, and reasonably priced.

### Vision Statement:

We strive to optimize the value of services we provide to our customers and continually seek new ways to enhance efficiency and promote worker and customer engagement and satisfaction.

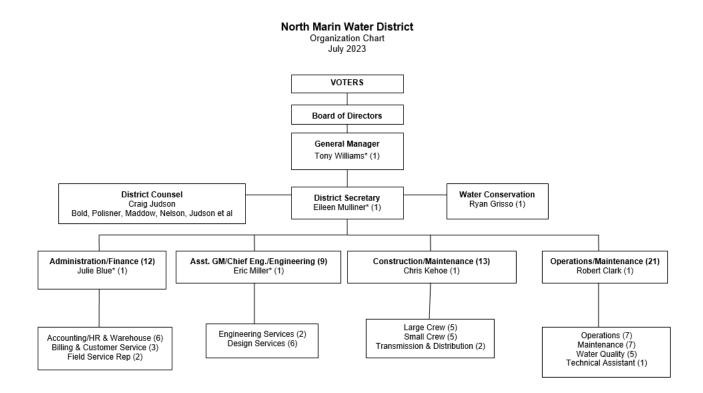

Stafford Lake

#### **Organization Information:**

North Marin Water District is a Special District formed by voter approval in 1948 pursuant to the provisions of the County Water District Law (Water Code – Division 12). The District is governed by a five-member Board of Directors, elected for four-year terms by division from within the District's service area. The current Directors are as follows:

- Rick Fraites (Division 5), President
- Jack Baker (Division 2), Vice President
- Ken Eichstaedt (Division 1)
- Michael Joly (Division 3)
- Stephen Petterle (Division 4)

Day to day operations are led by General Manager Tony Williams, and there are four departments and 58 budgeted full-time employees, as shown in the organization chart below.

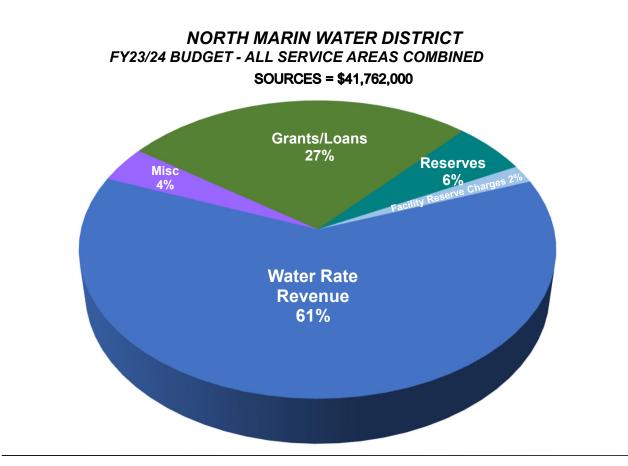

\*Also serves as District officer

**USES = \$41,762,000** Excludes Depreciation Expense & Developer Funded Costs

#### **Summary**

The \$41.8 million consolidated budget projects operating revenue of \$26.5 million and a net operating revenue of \$5.6 million. The FY 23/24 budget incorporates \$5.1 million in internally funded capital improvement projects and \$5.8 million in water purchases. After payment of \$4.6 million in debt service, the consolidated budget projects a decrease in cash for the fiscal year of \$2.2 million. The below chart shows that the North Marin Water District's financial plan will maintain sufficient cash reserves aiming towards the designated targets and remaining above the minimum level, while sustaining a debt service coverage ratio above 1.5.

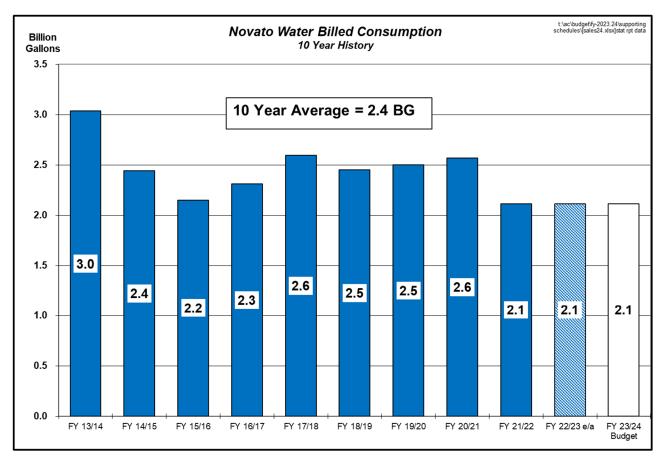

#### Novato Water

The Novato Potable Water System budget projects a \$2.2 million cash decrease over the fiscal year. A 9.5% rate increase in both the commodity and service charge, effective July 1, 2023, was approved by the Board of Directors at a public hearing which occurred on June 20, 2023. Total budget outlay, which includes \$4.4 million in internally funded capital improvement projects, is projected at \$27.1 million which is \$262,000 (1%) higher than the FY 22/23 budget.

#### **Operating Revenue**

**Water Rate Revenue** - Water consumption is budgeted at 2.1 billion gallons (BG) which is equivalent to the FY 22/23 budget. This conservative estimate is indicative of the current environmental and economic conditions where historical trends are less predictive of future outcomes. The 9.5% rate increase, effective July 1, 2023 is projected to increase revenues by approximately \$2 million but is highly dependent on water consumption volumes. The following chart shows a 10-year history of billed consumption for the Novato Potable Water System.

**Other Operating Revenue** – The wheeling charge to Marin Municipal Water District is budgeted at \$140,000. This is based on the average revenue collected in the past five years. Miscellaneous Operating Revenue of \$307,000, from various sources, include turn on and new account charges, hydrant meter installation and removal, lab services provided to other agencies, and backflow charges for testing and maintenance.

#### **Operating Expenditures**

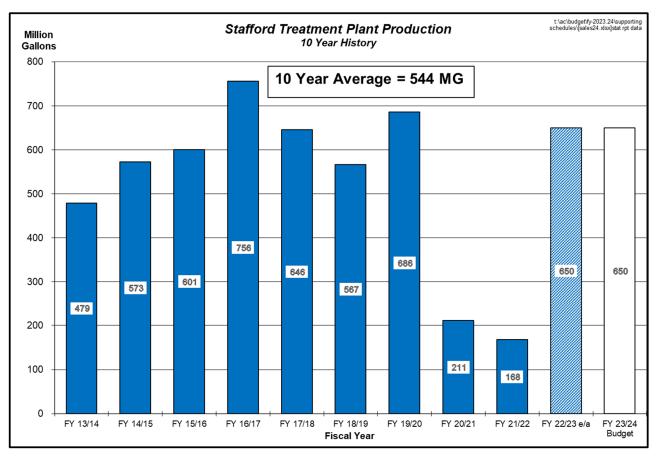

Operating expenses are budgeted to increase 9.8% or \$1.7 million from the FY 22/23 budget. The increase is primarily due to inflation adjustments, increases in the cost to purchase water, insurance costs, regulatory costs and personnel costs. Water purchases, and some operational costs are variable and dependent on the volume of water produced and purchased while many other expenses such as salaries, benefits, general liability insurance, and other administrative costs are fixed. More details are outlined in this budget report.

**Source of Supply** – The purchase price of water from Sonoma Water (SW) (also known as Sonoma County Water Agency) is projected to increase 12.51% in FY 23/24. This change will result in a cost per million gallons (MG) of \$3,804 for FY 23/24 versus \$3,381 for FY 22/23 and is estimated to increase the cost to purchase water by \$600,000.

**Stafford Treatment Plant (STP) Water Production** – STP water production is projected at 650 MG in FY 23/24 which is higher than the 10-year average annual production of 544 MG, as shown in the below chart. This estimate could differ from actual operations but is probable due to Stafford

Lake being full from the recent wet winter. The cost to produce water, at this budgeted level of production, costs approximately 30% more than purchasing it from SW.

Although the cost of STP water production is higher than purchases from SW, the benefits of having a local water supply for resiliency, emergency preparedness, and periodic maintenance on the SW transmission system, outweighs the additional costs in operating the plant.

**Personnel Costs** - The budget includes a staffing level of 58 full-time equivalent (FTE) employees, see staffing position allocation schedule. There is an increase of one FTE in the Administration Department, one FTE in the Operations Department, and one FTE in the Construction Department. Actual departmental allocation may vary depending on operational needs. The increased headcount is budgeted to assist with excess workload, new and existing regulation compliance, redundancy coverage, preparedness for emergency events, and succession planning.

The District previously entered into a five-year Memorandum of Understanding (MOU) with the Employee Association which expires on September 30, 2023. Negotiations for an updated contract are in progress. Changes in salaries and benefits are assumed to align with inflationary projected increases.

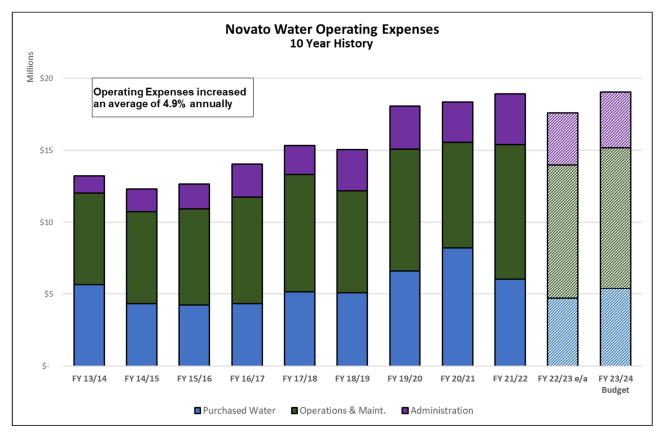

The District's CalPERS retirement contribution rate and related employer costs are budgeted at 30.3% of employee earnings, which approximates the rate budgeted last year. When applied to the FY 23/24 budgeted earnings this equates to an increase in annual pension expense

of approximately \$130,000. For context, the rate in FY 16/17 was 20.2% of earnings and any increases in pension expense has a compounding impact when tied to annual COLA increases. Workers compensation insurance is budgeted to increase 11% based on actual premiums as provided by our insurance provider, Zenith. For budgeting purposes, group health insurance rates were increased with inflation. Over the last three years, average health insurance costs increased 5.9% annually.

#### Other Operations & Maintenance Expenses –

- <u>Office Equipment Expense</u> is budgeted at \$260,000 which includes an increased budget in preparation for the District's headquarters and laboratory relocation back to Rush Creek Place. This is \$132,000 (103%) higher than the prior year's budget. The move necessitates additional office expenses that cannot be classified as capital expenditures, including some furniture and Information Technology (IT) items.
- <u>Backflow Prevention Program</u> is budgeted at \$356,000 which is an increase of \$119,000 (50%) from the prior year's budget. The increase is due to State required backflow testing, which includes staff time, materials, and contracts with outside vendors. The increase is needed to align the budget with the actual cost of the program.
- <u>Insurance Premiums and Claims</u> are budgeted at \$268,000 which is an increase of \$73,000 (37%) from the prior year's budget and align with expected premium and claim costs.
- <u>Studies and Special Projects</u> are budgeted at \$385,000, which is \$61,000 (19%) higher than the prior year's budget. Included in this expense is an update to the Novato Water Master Plan and an Aqueduct Vulnerability/Cathodic Assessment.
- <u>Human Resources</u> are budgeted at \$258,000 which is an increase of \$61,000 (31%) from the prior year's budget. The increase is due to staff time, legal counsel, and the completion of the compensation survey related to the Employee Association negotiations.
- <u>Chemical Costs</u> for water treatment are budgeted at \$480,000 which is an increase of \$45,000 (10%) from the prior year's budget. The increase is based on prices provided by the Bay Area Chemical Consortium (BACC) and quantities estimated by Operations.
- <u>Permit and Regulatory Fees</u> are budgeted at \$200,000 which is an increase of \$21,000 (12%) from the prior year's budget. The increase is based on actual invoices received for the next fiscal year and estimates based on prior year's average increases.

The following chart shows the past 10-years of operating expenses for Novato Water. The average increase to actual expenses is 4.9% which is influenced by a one-time payment of \$1.1M in FY 19/20 for bond issued debt service made to SW. Additionally, the average increase in operating expenses is impacted by the purchase of 363.5 million gallons of water from SW to backfeed Stafford Lake in FY 21/22 at the cost of \$1.1 million.

#### Non-Operating Revenue -

Facility Reserve Charge (FRC) revenue is budgeted in FY 23/24 at \$793,000. FRC revenue of \$400,000 for 14 Equivalent Dwelling Units (EDUs) is estimated to be collected in FY 22/23. The annual average connections have been 55 EDUs (FY 18/19 through FY 22/23). Included in the projections is annual FRC revenue equivalent to 28 EDUs or about half of the actual five-year average.

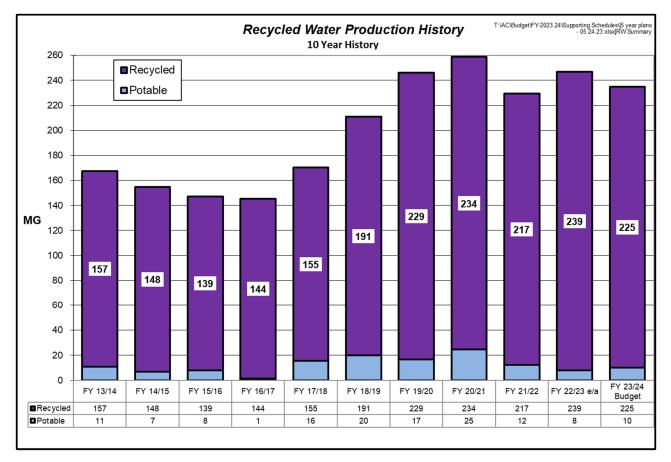

Marin Municipal Water District (MMWD) will pay the annual fixed Aqueduct Energy Efficiency Project (AEEP) capital contribution of \$205,000 in accordance with the terms of the 2014 Interconnection Agreement. Additional non-operating revenue of \$667,000 is comprised of interest earnings, property tax revenue, and rental income.

#### Non-Operating Expenses -

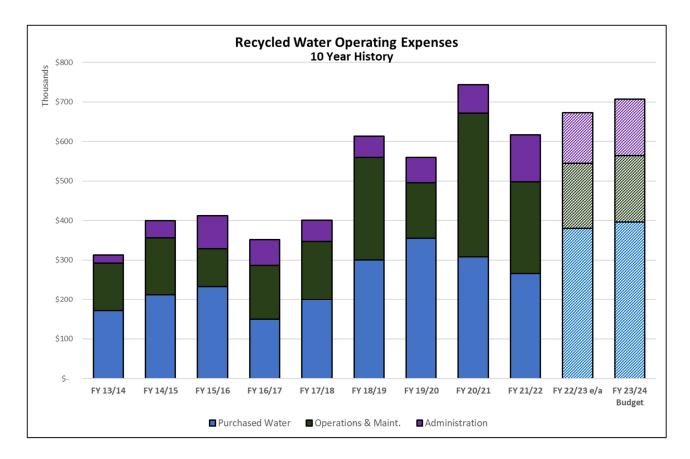

A \$376,000 expense for costs related to the lease of temporary office and lab space during the Administrative and Laboratory Upgrade Project is included in the FY 23/24 Budget. These are temporary expenses and will cease once the project is complete. Other Non-operating expenses include interfund loans made and received from West Marin Water and Oceana Marin Sewer.

#### **Recycled Water**

The FY 23/24 Recycled Water (RW) System Budget projects demand of 235 MG which is slightly lower than the estimated consumption for FY 22/23. The Recycled Water System fiveyear forecast projects ongoing demand of 235 MG, which is a slight reduction from the FY 22/23 projections with expected reduced recycled water use assuming non-drought years. See below for the RW production ten-year history. Consistent with the 2020 Novato and Recycled Water Rate Study recommendation an increase of 5.3% (current rate of inflation at the time of this budget preparation) for the commodity rate and bimonthly service charge was approved, effective July 1, 2023 followed by 6% rate increases in FY 24/25 through FY 27/28. The approved increase is projected to generate \$94,000 in additional revenue next fiscal year. The RW rates will be reviewed in an updated rate study in FY 23/24.

Operating expenses are budgeted to increase approximately 5% (\$34,000) from the projected FY 22/23 actuals, primarily due to inflation – see below chart for 10-year history. The FY 23/24 budget includes the purchase of 180 MG (\$283,000) of treated water from Novato Sanitary District (NSD), for approximately \$1,570/MG and 50 MG (\$113,000) from Las Gallinas Valley Sanitary District (LGVSD), for approximately \$2,250/MG. The Deer Island Plant is budgeted to produce 5 MG during the summer to keep it operational and as a condition of the State Revolving Fund (SRF) loan that was borrowed in 2006 to construct the plant.

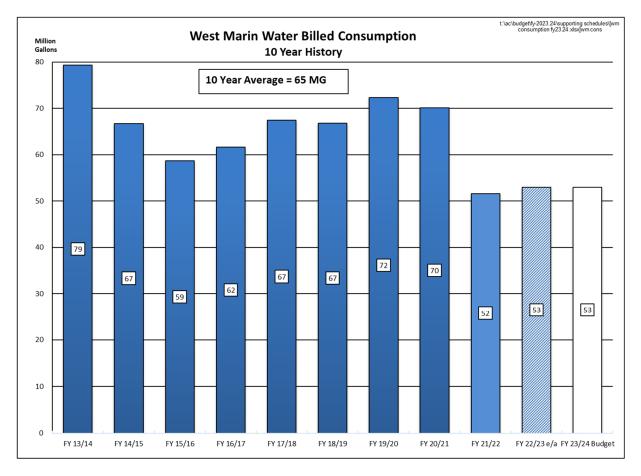

Agreements with NSD and LGVSD allocate net operating revenues to a reserve fund titled Capital Replacement and Expansion Fund. These funds are allocated to each agency, including NMWD, and are designated for CIP related projects for the individual RW systems. Since the net revenues are allocated, by agreement for this specific purpose, Facility Reserve Charges from the Novato potable water system are transferred annually to cover the cost of RW debt service. The FY 23/24 RW budget transfers for the cost of debt service is budgeted at \$750,000.

Major projects to expand recycled water distribution facilities for FY 23/24 include \$300,000 to extend RW from Redwood Blvd to Rush Creek Place and \$300,000 for the Hamilton Veteran's Housing Project (Homeward Bound). These CIP projects are scheduled to be financed with the Capital Replacement and Expansion Fund Reserve.

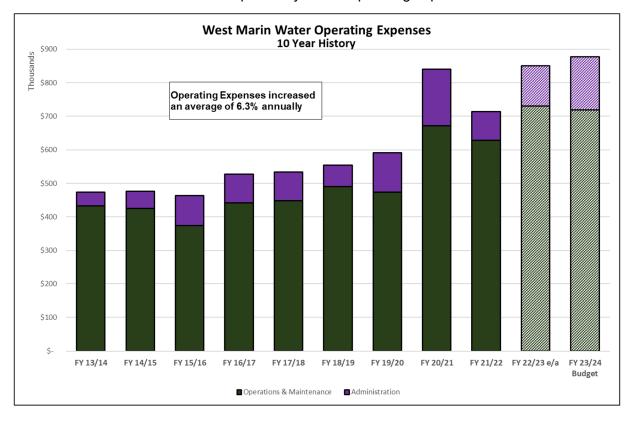

#### West Marin Water

Incorporated in the West Marin Water budget is a 6% rate increase in both the commodity and service charge, effective July 1, 2023. The rate increase aligns with the Board approved 2021 West Marin Water Rate Study. The increase was approved by the Board of Directors at a public hearing which occured on June 20, 2023. The increase is projected to generate \$58,000 in additional revenue next fiscal year. There is one new Facility Reserve Charge budgeted for FY 23/24.

FY 23/24 water consumption is budgeted at 53 MG and is based on the estimated consumption of 53 MG in FY 22/23. The projections for outlying years are forecasted at 56.5 MG, substantially below the actual ten-year average of 65 MG (see the below chart). Similar to Novato Potable water, the water consumption estimate is conservative given the present environmental and economic conditions. Historical trends have become less reliable as indicators of future outcomes.

WM operating expenditures are budgeted at \$877,000 which is \$127,000 higher or 16.9% more than the FY 22/23 adopted budget. The increase is primarily due to inflation and the inclusion of a Water Supply Resilience Feasibility study estimated at \$75,000. The budget projects net operating revenue of \$157,000 and, after capital outlay and debt service, the system is projected to show a cash decrease for the year of \$196,000.

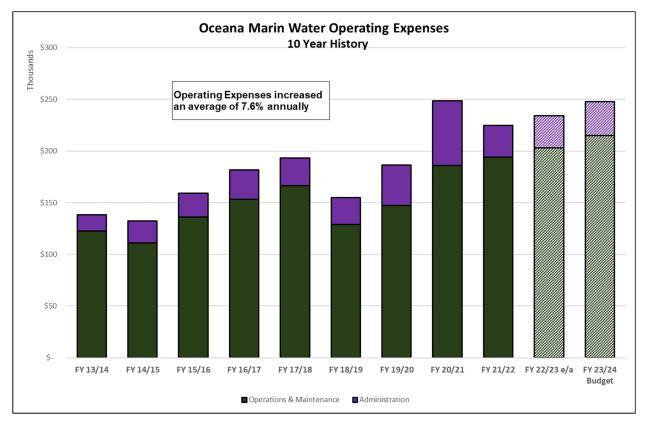

The below chart shows the past 10-years of operating expenses for West Marin Water.

#### Oceana Marin Sewer

A 6% rate increase (to \$1,374/year) in the Oceana Marin (OM) Sewer Service Charge effective July 1, 2023, is projected to add approximately \$17,000 in additional annual revenue. The increase was approved by the Board of Directors at a public hearing which occurred on June 20, 2023. Growth in the past three years has remained stable so conservatively there are no new Facility Reserve Charges budgeted for FY 23/24. Included in the five-year financial forecast is revenue for one new connection every other year.

FY 23/24 OM operating expenditures are budgeted at \$248,000 which is an increase of \$25,000 or 11% from the FY 22/23 adopted budget. The increase is primarily due to an estimated increase in the annual State required waste discharge permit fees, inflation, and adjustments in costs to align with expected operational needs. The budget projects a net operating revenue of \$75,000 and, after capital outlay, the system is projected to show a cash decrease for the year of \$96,000.

The below chart shows the past 10-years of operating expense for Oceana Marin Sewer.

#### Capital Improvement Project Budget (CIP)

The Fiscal Year 23/24 Capital Improvement Project (CIP) budget includes projects recommended for Novato Water, Recycled Water, West Marin Water, and Oceana Marin Sewer. The District continues to invest in CIP projects within all service areas. These investments benefit our customers by ensuring the system's fire protection capabilities, potable and recycled water supplies, and treatment of both water and wastewater are fully functional. By committing financial resources to replacement and upgrades of aging infrastructure, the District is able to prevent unexpected failures in the future. Using a preventative maintenance approach is a form of asset management that looks beyond replacing infrastructure in a "worst first" methodology (typically the oldest infrastructure), but rather it considers life-cycle costs and leverages opportunities to execute project costs effectively incorporating economies of scales.

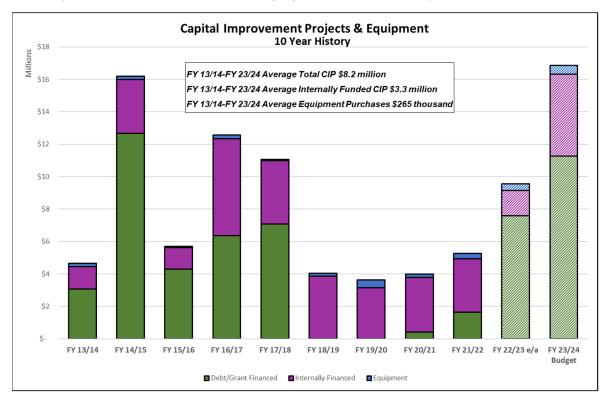

The below table identifies significant projects (totaling over \$500,000 or more) to be undertaken over the next five fiscal years. The table also includes the total cost of the projects, which adds all costs occurring within and outside of the five-year forecast period.

			FY25/26 thru	Т	otal Project
Project	FY23/24	FY24/25	FY 27/28		Costs
Administration and Laboratory Upgrade Project	\$ 8,000,000	\$	\$-	\$	16,740,000
Novato Blvd Widening - Diablo to Grant (4,100')	80,000	1,000,000	1,500,000		2,595,000
Lynwood Pump Station Replacement	300,000	1,000,000	1,000,000		2,440,000
Oceana Marin Treatment Pond Rehab (OM)	800,000	1,000,000	-		1,815,000
Lagunitas Creek Bridge Pipe Replacement (Caltrans)	50,000	240,000	1,200,000		1,580,000
Crest PS Construction (Reloc. School Rd. PS)	1,500,000	-	-		1,560,000
Water Supply Enhancement - Spillway ASG	150,000	150,000	1,200,000		1,550,000
San Mateo Tank 24" Transmission Main	25,000	25,000	1,025,000		1,085,000
Seismic Upgrade / Coating - Lynwood Tanks (x2)	25,000	500,000	500,000		1,025,000
Replace Supernatant Line to Center Rd. (4"-4,400LF)	625,000	375,000	-		1,025,000
Hydropneumatic Upgrades, Phase 1 (Bahia)	850,000	-	-		925,000
Hydropneumatic Upgrades, Phase 2 (Hayden)	-	-	925,000		925,000
PRE Tank #1 & #2 Replacement (WM)	-	-	620,000		620,000
Recoating - Garner Tank	25,000	250,000	250,000		525,000
Construction Building Upgrade	150,000	-	1,000,000		1,150,000
Other Projects	3,735,000	2,495,000	8,780,000		N/A
Gross Project Outlay	16,315,000	7,035,000	18,000,000		33,885,000
Less Loan/Grant Funding	(11,255,000)	(2,530,000)	(2,016,000)		(15,801,000)
Net Project Outlay (internally funded)	\$5,060,000	\$4,505,000	\$15,984,000		\$18,084,000

Below is a summary of the capital projects that are funded through pay as you go (Paygo) financing. Pay-go capital financing matches the rate revenue generated during the fiscal year with the budgeted CIP. This enables the projects to be completed incrementally and reduces reliance on debt. The CIP budget includes 54 projects in FY 23/24 and 35 projects in FY 24/25. This comprehensive plan is developed to confirm that adequate funding and staffing exists to accomplish the budgeted projects planned for FY 23/24. Novato Potable Water's CIP expenditure plan, when viewed 45over the current fiscal year and the next five years, averages \$4.4 million annually in internally funded projects, and West Marin Water's CIP expenditure plan, averages \$548,000 annually in internally funded projects.

Total Pay-Go	\$5,060,000	54	\$4,480,000	35	\$4,969,000	27	\$5,760,000	28	\$5,255,000	40

The below chart shows the District wide 10-year history of capital improvement projects averaging \$8.2M per year, including \$3.3M of internally (or "Pay-Go") financed projects, and a 10-year history of equipment purchases averaging \$265 thousand per year.

**Equipment Budget** - The FY 23/24 Equipment Budget totals \$538,000. This is \$19,000 lower than the FY 22/23 Equipment Budget of \$557,000. In FY 18/19 the District entered into a leasing agreement with Enterprise Fleet Management (EFM) with a plan to lease 27 vehicles, phased in over five years. There are currently 21 leased vehicles in the District's fleet. Included in the FY 23/24 budget is \$148,000 for leased vehicles for the replacement of four additional vehicles, ranging from 8 to 15 years old. Another significant purchase included in the equipment budget is \$340,000 for a Class 8 Service Truck.

#### Debt Service

Principal and interest payments totaling \$4.5 million (excluding interfund loans) are budgeted as the annual obligation on \$41.5 million in outstanding debt (as of June 30, 2024), comprised of:

- \$4.9 million with a 2.39% interest rate for a State Revolving Fund (SRF) loan used to finance the Stafford Water Treatment Plant Rehabilitation;
- \$3.5 million with a 3.42% interest rate for a bank loan used to finance the AEEP and West Marin Treatment Plant Solids-Handling Facility;
- \$3.3 million with a 2.69% interest rate for a bank loan used to finance the Advanced Meter Information (AMI) project;
- \$18.4 million with a 3.11% for a bank loan used to finance the Administration and Laboratory Upgrade Project and other capital improvement projects.
- \$0.8 million with a 2.4% interest rate for an SRF loan used to finance the Deer Island Recycled Water Facility;
- \$10.6 million in SRF loans (with interest varying from 1%-2.6%) used to finance the recycled water distribution system;

The estimated FY 23/24 consolidated debt service coverage ratio (DSCR) is 1.58 which complies with the targeted >1.5 DSCR as outlined in the Board approved debt policy. DSCR measures the cash flow available to repay debt. A higher DSCR indicates a greater ability to meet debt obligations. The DSCR is calculated by dividing operating revenue (cash flows) by the total amount of debt payments due in the year. Below is the debt service schedule which provides more details on the District's outstanding debt.

													6/30/24

#### Budget Summary Fiscal Year 23/24

		Adopted Budget	Estimated Actual	Adopted Budget
		FY 23/24	FY 22/23	FY 22/23
	Operating Revenue			
1	Water Rate Revenue	\$22,771,000	\$21,266,000	\$21,927,000
2	Wheeling & Misc Service Charges	447,000	416,000	358,000
3	Total Operating Revenue	\$23,218,000	\$21,682,000	\$22,285,000
	Operating Expenditures			
4	Source of Supply	\$5,486,000	\$4,795,000	\$5,775,000
5	Pumping	528,000	448,000	547,000
6	Operations	1,138,000	1,088,000	933,000
7	Water Treatment	2,942,000	2,741,000	2,511,000
8	Transmission & Distribution	4,121,000	3,958,000	3,661,000
9	Consumer Accounting	510,000	482,000	476,000
10	Water Conservation	466,000	457,000	447,000
11	General Administration	3,841,000	3,428,000	2,989,000
12	Total Operating Expenditures	\$19,032,000	\$17,397,000	\$17,339,000
13	Net Operating Revenue	\$4,186,000	\$4,285,000	\$4,946,000
	Non-Operating Revenue/(Expenditures)			
14	Interest Earnings	\$469,000	\$790,000	\$280,000
15	Property Tax & Miscellaneous Revenue	242,000	\$242,000	136,000
16	Miscellaneous Expense	(376,000)	(450,000)	(406,000)
17	Total Non-Op Revenue/(Expenditures)	\$335,000	\$582,000	\$10,000
	Other Sources/(Uses) Of Funds			
18	Capital Improvement Projects	\$ (13,935,000)	\$ (8,572,000)	\$ (16,527,000)
19	Loans/Grants	9,500,000	7,000,000	12,650,000
20	Capital Equipment Expenditures	(538,000)	(408,000)	(557,000)
21	CIP Efficiency Adjustment	1,492,000	-	-
22	Debt Principal Payments	(2,323,000)	(2,405,000)	(2,404,000)
23	Interest Expense	(930,000)	(985,000)	(846,000)
24	Facility Reserve Charges	793,000	500,000	872,000
25	MMWD AEEP Capital Contribution	161,000	157,000	205,000
26	West Marin Loan Principal Repayment	88,000	-	69,000
27	Loan to Oceana Marin	(200,000)	-	(500,000)
28	Low Income Rate Assistance Program	(31,000)	(28,000)	(42,000)
29	Transfer Out to Recycled Water	(750,000)	(750,000)	(890,000)
30	Total Other Sources/(Uses)	(\$6,673,000)	(\$5,491,000)	(\$7,970,000)
31	Cash Increase/(Decrease)	(\$2,152,000)	(\$624,000)	(\$3,014,000)
